

Mr. Chem Dry Utah Offers Comprehensive Pet Odor Removal Services

August 05, 2019

August 05, 2019 - PRESSADVANTAGE -

Centerville, Utah based Mr. Chem-Dry is proud to announce that they utilize their proprietary cleaning solution to provide exceptional pet odor removal services in the greater Utah area. The company also states that they provide both homeowners and local businesses with comprehensive carpet, rug, upholstery, and tile cleaning services as well as pet urine removal treatment and water damage cleanup. Learn more here: [Utah pet odor removal](#).

As noted on the company's website, Mr. Chem-Dry is a Utah carpet cleaning company serving the Salt Lake, Davis, and Weber counties. They take pride in their experience, systems, education, and reputation, and guarantee to provide the best cleaning service possible to their clients. "We use our proprietary Natural® Chem-Dry cleaning solution that cleans deeply and contains environmentally friendly detergents and chemicals. Our cleaning system also utilizes 80% less water compared to traditional methods, which means that your furniture, rugs, carpets, and more can be completely dry in just a matter of hours," says Daryl Olsen from Mr. Chem-Dry Utah.

He also states that the cleaning process used by Mr. Chem-Dry is safe for rugs and carpets, as well as any

upholstery or fabric. Their cleaning process involves using a truck mount unit that heats up the cleaning solution to up to 230°F. The solution is then applied using a machine known as the PowerHead Machine® that also has a patented Amplified Extraction feature that glides, spins, and sucks away dirt trapped deep within all types of surfaces.

Olsen adds that Mr. Chem-Dry also provides a service that is 100% effective in removing foul smells caused by pet urine and feces. They utilize a special Hot Carbonated Extraction cleaning system where tiny bubbles permeate the problem area and lift out the dirt, debris, and odors. It also has very fast drying times as the process uses less water than any other cleaning system. "Our cleaning solution will fully break down all of the elements that are causing the odor within the following 24 to 36 hours. We also assure that any foul odor will be gone for good once the cleaning process has been completed. Our team of professional cleaners will then inspect the affected area using a specially designed ultraviolet light to ensure that no residue is left behind," he says.

Mr. Chem-Dry also issued some useful tips and guidelines to pet owners on how to get rid of pet odors. The cleaning company notes that one of the simplest ways to prevent pet odors is to regularly vacuum the floor, since pet fur and dander have a way of getting trapped in carpets, furniture, and rugs. They also advise pet owners to keep their house well ventilated as well as expose rugs, carpets, and upholstery to sunlight. In addition, they warn owners away from ammonia-based cleaning solutions since urine also contains ammonia, increasing the occurrence of pets urinating in the same area. Furthermore, the company recommends hiring a professional and reliable Utah pet odor removal company like Mr. Chem-Dry to permanently solve the problem.

When it comes to choosing the best Utah carpet cleaning company in Salt Lake, Davis, and Weber counties, it helps to do a bit of research online to determine the best cleaning company that can offer quality service and deals. Mr. Chem-Dry is one of the most trusted cleaning companies in the area, based on a number of positive reviews and recommendations they receive online. In fact, they have an average rating of 4.9/5.0 from over 110 customer reviews on Google.

Kellyann Miles, in a Google review, says, "We have been using Mr. Chem-Dry for years and appreciate the punctuality and professionalism of this carpet cleaning company. We truly have never had a bad experience with them and our carpets and upholstery are always clean and fresh. I have also recommended them to all of my neighbors and friends. Thank you so much, Mr. Chem-Dry, for all of the years of service to our family."

Meanwhile, Gary Atwell says on Facebook, "Mr. Chem-Dry is Awesome. They are always introducing new solutions to their customer's carpet cleaning issues. For example, they can do spot dyeing if your carpet has bleached out areas. They have a wonderful system for spot and stain removal, especially for those impossible red stains from drinks and such. They have also come out with newer and much easier ways to

remove stains from organic sources. Mr. Chem-Dry is and will always be the cleaning professional for me.?

More information can be found on the company's website. Interested parties may also connect with Mr. Chem-Dry through their official social media pages to stay in touch with their latest news and important announcements.
