GOM Offers Service & Repairs For HP Printers Photocopiers and Plotters In Parramatta and Sydney Metro NSW

August 14, 2019

August 14, 2019 -

Parramatta, New South Wales based Global Office Machines (GOM) is pleased to inform their customers that they may avail themselves of the company?s repair and maintenance services, not only in Parramatta but across the complete Sydney region and nationally including Melbourne, Brisbane, Canberra, Adelaide and Perth. Customers have access to a team of expert technicians who specialize in HP printer repairs and servicing. They are an authorized service center for all types of HP printers, including LaserJet, DesignJet, DeskJet, and Photosmart series.

As noted on the company?s website at https://gom.com.au/printer-repairs/ GOM retains a team of technicians who receive extensive and up-to-date training to continuously improve their knowledge and keep abreast of the latest HP printer makes and models. This gives the team the unique ability to address even the most complicated HP printer issues. ?Our technicians are trained to fix your HP printer onsite, and they always carry a set of spares for various makes and models to make the servicing process as efficient as possible. In the unlikely event that they cannot fix your printer within the same day, GOM will securely transport your HP printer to one of our local mobile workshops and provide you with a replacement machine so you experience

as little downtime as possible,? says Andy, Service/ Solutions Director from GOM.

Andy adds that the company boasts a 98% first visit success rate, so customers can be sure that their printers will be back up and running in no time?with negligible disruption. Furthermore, GOM has a number of mobile service vans that are fully stocked with the most commonly needed parts and diagnostic equipment. ?In case the parts you need are not present in our mobile service vans, we also have several service centers within the greater NSW area; even the rarest of parts is just a short delivery away,? says Andy.

Global Office Machines is one of Australia?s leading companies in the servicing and repair of HP devices. They have over 20 years of experience in the industry and have established themselves as a trusted name in providing exceptional service and same day printer repairs. As a 100% Australian owned and operated company, GOM has made itself known as an industry leader and front runner in the provision of excellent customer service and sound solutions to offices and businesses all across the country.

Besides offering printer repairs and servicing, GOM also supplies and distributes office supplies and equipment from some of the major brands in the business. They sell large format printers, laserjet printers, photocopiers, plotters, and multifunction printers, among others. They also provide office supplies and consumables, including inks, toners, wide format ink, and wide format paper. Furthermore, businesses who wish to subscribe to a printer lease agreement may also connect with GOM.

?When it comes to leasing an office machine, let GOM help you choose the perfect solution for all your needs. Whether your business is small, medium, or at an enterprise level, we can help you find the best machine from some of the most trusted brands in the market which includes HP, Canon, Samsung, Kyocera, Fuji Xerox, and more,? says Andy. He further explains that leasing a printer gives businesses full control and usage of the device while paying fixed installment fees over the contract period. This enables businesses, especially Small and Medium Enterprises (SMEs) to avoid investing excessively in office equipment, resulting in an improved cash flow that can be redirected to other areas of the business.

GOM is Australia?s preferred company for office equipment, based on a number of positive reviews and recommendations they have received from many of their customers. Kris says on Facebook, ?I was running late for an important presentation when, all of a sudden, our office printer died. I called the guys from Global Office Machines and their emergency response unit sped across Sydney, had our printer back online in no time, and saved the day. They really did a great job.?

Complete details can be found on the company?s website at https://gom.com.au/. Customers may also send an email or call GOM?s service hotline to inquire about their products and services. Furthermore, interested

parties may connect with GOM through their official social media pages to stay up to date with their latest news and important announcements.
