

Smithfield, NSW Company Offers TV Rental Services With Easy Payments

August 07, 2019

August 07, 2019 - PRESSADVANTAGE -

Easy Payment Options is pleased to announce that residents of Smithfield, New South Wales now have access to a lineup of new television rental options. More information is available at the following link: <http://urlnk.net/renttv-smithfieldnsw>.

The company has made it their mission to help New South Wales residents acquire new pieces of technology which may have previously been inaccessible to them due to the exorbitant costs that brand new units incur. The range of television rental options they now provide are a great opportunity for TV enthusiasts to acquire a great entertainment device at an affordable price. Notably, this system allows customers to pay weekly rental quotes for any period of time, rather than immediately making a substantial monetary investment.

Most of the TV rental options offered by Easy Payment Options pertain to Smart TVs, a technology that has seen significant advances in relevance and utility with each passing year. Today, every major TV manufacturer has designed and manufactured their own version (or versions) of the Smart TV, offering a variety of functions and unique utilities that can accommodate the needs of any kind of entertainment lifestyle.

However, this impressive pool of choices has one clear downside for the average consumer: it is difficult to settle on a single choice of Smart TV. This is due to the fact that many customers would struggle to figure out exactly which brand of Smart TV would deliver the experience they expect (and can manage) while maintaining a similarly high priority on their budget. By renting a Smart TV rather than purchasing it, however, an individual can preview and evaluate the different advantages and conveniences that a specific product has to offer. This allows them to choose more freely from a list of devices without having to worry about placing a substantial financial investment in a product they may not like.

Furthermore, given that technology evolves at a rapid pace, it may be wiser to rent a Smart TV rather than purchasing one as it allows the owner to easily switch to the latest devices when they become available. The company notes that this is one of the most popular benefits of their services. Their clients often choose to change and upgrade their rental products to newer versions of the same model, adopting the latest features that come with each update.

For more information, watch this video: <http://urlnk.net/vsmithfieldrenttv>.

Richard van der Velde, CEO of Easy Payment Options, asserts, "In a world where technology from only a few years ago is obsolete, renting a product suddenly does not seem to be such a bad option. Our rental terms allow our clients to upgrade their devices at the end of their contracts, which means that, if they so desire, they can adopt the latest devices every year. Furthermore, we also give our clients the possibility to purchase the device they have rented from us at a discounted price, allowing them to keep the product if they are not interested in purchasing a newer model in the future."

Easy Payment Options makes every effort to ensure that the rental of their products as easy and seamless as possible, offering different payment options according to their customers' requirements and unique situation. The company allows their customers to set up a payment plan through Centrepay, the most commonly used option among clients who have difficulty managing their cash flow and payments. Centrepay is a voluntary bill-paying service that is available at no extra charge for Centrelink customers. It can be used to arrange regular deductions from the customer's Centrelink account, allowing them to set up weekly deductions for the duration of the contract. Customers may also make their payments via Direct Debit.

The company's website includes more information on their services and rental options. They offer rentals for a range of electronics, including smartphones, laptops, and other devices. Interested parties may contact Richard van der Velde to learn more. Easy Payment Options is always willing to respond to inquiries regarding their Smart TVs, a list of which can be found at the following link: <http://urlnk.net/srent-tv2>.
