

DT Towing Pros Launches Long Distance Rescue And Towing Service In Dallas, TX

August 08, 2019

August 08, 2019 - PRESSADVANTAGE -

DT Towing Pros, a local business based in Dallas, Texas, has announced that they have launched a new towing service in Dallas TX communities and its surrounding areas. Kavan Noel, a spokesperson for the company, says, "We believe we are the cheapest towing service company in Dallas. Call us 24/7 to find out about our tow rates. We can help in any emergency situation, including long distance towing, and provide roadside assistance services. We aim to uphold a 30 minute response time because we know that being stranded is a stressful, emergency situation for anyone that has to be rescued."

The company, who are now active on multiple social media platforms, provides updates and tips to help educate drivers and travelers. For instance, they advise travelers to make sure that vehicles are in a drivable state before setting out. During the journey, if drivers find that something is wrong with the vehicle's handling, the company recommends pulling over to the side of the road and steering the vehicle as far out of travel lanes as possible. Having made a note of the location, they advise turning on the hazard lights and getting all passengers to exit through the passenger side of the vehicle and step away from the car. This is due to the fact that vehicles stranded by the side of the road are often hit by drivers who inadvertently steer towards them.

No one plans to breakdown by the side of the road. However, when they do, trying to find a rescue service they can trust can feel problematic. In their recent post, which can be found at <http://gmbp.in/u/5d49a608a21df>, the firm highlights that they have been in business for over 23 years and have dealt with virtually every type of emergency situation. They are fully licensed, bonded, and fully insured. They abide by all towing laws in Texas and provide friendly staff who are fully trained to deal with many types of breakdowns.

From the simplest jump start or battery replacement to complicated off-road assistance, they aim to make sure that drivers do not get ripped off by expensive and unreliable towing services. "We often meet new customers in some of their most challenging situations. We aim to not make a drama out of their emergency. We invite all our customers, new and old alike, to leave us their feedback and reviews on Google or Facebook and let us know if we can improve the service we provide," said Noel.

The company's towing services use modern state-of-the-art flatbed rollback tow trucks. With five key valley locations spread across Dallas, they aim to quickly reach stranded motorists and provide essential services at an affordable price. They also offer an online discount for their services through their website.

The company offers a full range of towing services, including winching and wrecker services, junk car removal, car lockout, oil and fuel solutions, and even glass and tire change/repair. They can assist with a motorcycle, light, and medium-duty towing. They assert they will do their best to accommodate any requirements; customers need only give them a call to discuss further. See <http://gmbp.in/u/5d49a3a3ab020> for contact information.

Noel continued, "We are proud to have provided towing services to thousands of vehicle owners for over two decades. Our trained and insured staff can provide roadside assistance of all kinds, including mechanical repair for broken down vehicles." The company advises that vehicle owners do their best to prepare for an emergency situation by keeping a few key things in their car, including a charged cell phone, a notebook with a list of emergency services, insurance information, and other phone numbers along with a pen or pencil. Medication and emergency food and water are also useful to keep in the car. In addition to this, the vehicle operating manual can be a useful reference for those who need to attend to an emergency. Those who prefer to be thoroughly prepared can read the National Safety Council guidelines for a list of items they recommend keeping in the car.

DT Towing Pros is a locally owned business and a member of the Better Business Bureau in Dallas. More information about the company and their service coverage can be found on their website, where additional contact information is also provided. Customers may also contact Kavan Noel to inquire further.
