Gro has developed an Entrepreneur's Idea Assessment Tool. This tool is a personalized assessment that helps users create the foundation for their business concept in a way that's easy to articulate to others, especially oneself.

The company was founded by seasoned entrepreneurs within the Loeb.NYC cohort, with the mission of increasing the rate of startup success.

Small business credit company Fundera says, "20% of small businesses fail in their first year, 30% of small businesses fail in their second year, and 50% of small businesses fail after five years in business."

Bryan Janeczko, Founder of Gro, explains their vision. "Our mission is to empower entrepreneurs to

dramatically increase the success rate of their new businesses. Collectively, our team has created billions of dollars in value, across many industries and markets. We're here to empower you to launch the successful new business you've dreamed of and claim your place in the new economy.?
