

Westchester Subaru Set To Launch 2020 Subaru Outback This Fall

August 13, 2019

August 13, 2019 -

Westchester Subaru, a car dealer based in White Plains, New York, has announced that they will be launching the 2020 Subaru Outback this coming fall and are now taking pre-orders for the new all-terrain SUV. The all-new 2020 Subaru Outback features the standard Symmetrical All-Wheel Drive with a fuel economy of 33 miles per gallon. It also features enhancements to safety, comfort, capability, and technology, including a new, tablet-sized high-resolution touchscreen interface. It also offers the all-new Subaru DriverFocus? Distraction Mitigation System.

Nolan Corlew, general sales manager of Westchester Subaru, says, "The 2020 Subaru Outback is fitted with a standard direct-injection Subaru Boxer® engine, which is more powerful at 182 horsepower, and more advanced, with the new Auto Start-Stop Technology for even better mileage around town. Paired with a Lineartronic® CVT, it can reach up to 33 MPG on the highway and over 600 miles of range."

Norlan Corlew continues, "We are scheduled to launch the 2020 Subaru Outback this coming fall and were are ready to take pre-orders now. Remember that it's still designed to be the long-lasting and dependable adventure companion you love, with 98% of Outback vehicles sold in the last 10 years still on the road today. With the 2020 Subaru Outback having 8.7 inches of ground clearance and standard X-MODE®, it can be used to bring individuals or the family to almost any place."

The X-MODE® functions by optimizing the Symmetrical All-Wheel Drive system for optimum traction on slippery surfaces and Hill Descent Control provides extra stability and confidence when descending more challenging grades.

And for those who would rather lease than buy, Westchester Subaru also offers Subaru Outback lease deals. These leases have a duration of 36 months and the client has the option to purchase the car at a certain price.

The 2020 Subaru Outback is also provided with standard raised roof rails with integrated crossbars to provide

more cargo-carrying versatility for equipment like bikes, kayaks, skis, and cargo carriers. These can be folded away when not in use. And the enhanced tie-downs provided with the roof rails offer even more flexibility and make it easier to rack and unrack the cargo.

The 2020 Outback also features the standard EyeSight® Driver Assist Technology with automatic Pre-Collision Braking. This includes the all-new Advanced Adaptive Cruise Control with Lane Centering, which can help the driver with steering, throttle control, and braking.

And with the DriverFocus? Distraction Mitigation System, it is like having an attentive co-pilot for the SUV. This advanced system provides helpful alerts to drivers when they get distracted or drowsy. Furthermore, this system is able to recognize up to five different drivers, remembering each driver's preferences, such as climate settings, outside mirror position, and seat position.

The 2020 Subaru Outback is provide with a suite of safety technologies to boost safety and security. For instance, there is the Blind-Spot Detection system that warns the driver with a visual indicator in each side mirror if it is able to sense the presence of a vehicle in the blind spots. In addition, there is the Rear Cross-Traffic Alert, which warns the driver of traffic approaching from the side while backing up, and a standard Rear-Vision Camera that improves visibility when reversing. And with Reverse Automatic Braking, it can stop itself to help avoid objects behind the car.

The 2020 Subaru Outback also has an updated Subaru Starlink? Safety and Security system. Its Advanced Automatic Collision Notification will alert an operator if the car has been involved in an accident. The SOS Emergency Assistance feature will alert an operator if the driver wants roadside assistance at the push of a button.

Westchester Subaru is a Subaru car dealership that offers its services to residents of Scarsdale, White Plains, Elmsford, and Tarrytown, New York. They have available a wide range of cars, that can be bought at straightforward financing deals, and provided with excellent car care services. They offer both new and pre-owned vehicles and also the possibility of leasing new Subaru cars.
