

## **Stillwater Kitchen Remodeler Announces the Launch of Their New Website**

*August 16, 2019*

August 16, 2019 - PRESSADVANTAGE -

J&J Remodelers LLC of Stillwater, Minnesota has just announced the launch of their new website. The company has been serving those in Stillwater and the surrounding areas such as Woodbury, North Oaks, Golden Valley, and Edina for many years now. Their new website is part of the companies plan to stay as progressive as possible. The website can be seen at <https://jjremodelers.com/>.

Spokesperson Tyler Ganz talked about why they decided to launch a new website by saying, "Over the years we have gotten bigger and better at what we do and we felt that our website should get bigger and better too. We wanted to make a website that gives our customers as much information as possible on our remodeling services and also makes it easier for them to contact us. There was also a need to improve our photo gallery and add a testimonial section to the website. We feel those that take the time to visit our new website will be really pleased with how it turned out."

J&J Remodelers designed the new website to have more of a personal feel to it. This was accomplished by doing such things as adding bios for Randy Jennissen and Greg Johnson. It lets their customers know what these gentlemen are all about when it comes to remodeling. The new website also mentions how they

put their combined 65 years of experience into every remodeling project that the company is asked to do. J&J Remodelers new website even goes on to discuss the vision the owners have of helping to ensure that the homeowners that come to them achieve their remodeling dreams. There is also a section in the new website that discusses what's involved in the remodeling process and some informational blogs have been added as well.

In addition to its new website, the company is also looking for other ways in which their customers can contact them and learn more about their services. A good example of this is that their customers can now see J&J Remodelers on Facebook.

The company offers a wide variety of interior and exterior renovations. This includes their kitchen, living room, and bathroom remodeling services. Ganz pointed out that by renovating these rooms it can change the entire look and feel of any home. They are also well-known for the home additions that they do and their custom deck building.

J&J Remodelers also has an experienced design team. They are there to help a customer get the most out of a remodeling design within the budget they have to work with. Their design team is led by Natalie Riesselman and Leah Kovar. Natalie is an interior design specialist whose work has been published in magazines such as "This Old House". Leah is an expert at functional space planning and color concepts.

Ganz also talked about the pride they take in their customer service; he said, "We like to think that we go out of our way to make sure all of our customers' needs are met from the start to the finish of any remodeling project. That includes answering all the questions a customer has as they start to get more serious about getting a remodeling project done. Our company also offers free initial consultations and an unheard-of On-Time Completion Guarantee. We like to get to know our customers by name and always encourage them to visit our Stillwater Location and get to know us better. Once their our customers can also take a look at our ultra-modern showroom."

The way J&J Remodelers goes about doing their work combined with their excellent customer service has led to them getting many favorable reviews. Paul and Linda from North Oaks wrote, "Thank you for our beautiful home. I love it and appreciate it every day. The extra space really has changed our lives for the better. You guys do beautiful work!?"
