

One Of The Best Newport Beach Plastic Surgeons Receives Another Rave Review

August 20, 2019

August 20, 2019 - PRESSADVANTAGE -

Aaron Kosins MD, considered to be one of the best plastic surgeons in Newport Beach, California, has announced with pride that he has received another rave review, which can be seen on his Facebook page. It is a five star review from a beautiful patient who had a rhinoplasty and chin implant and comments on how natural her nose and chin look that people are not able to tell that she had undergone those procedures. The patient also provided her before and after pictures as proof of the excellent work done by Dr. Kosins.

The very satisfied patient said, "I had my rhinoplasty and chin implant done on 11/28/16 and I couldn't be happier. It looks so natural and no one can tell I got it done. Dr. Kosins is so caring and even though I had my nose done a while ago, if I email him with a question he still answers right away! He goes above and beyond to make sure his patients are happy! I would give him 10 stars if Yelp would let me."

When looking for Newport Beach plastic surgeons who put their patients first and make use of cutting edge technology for their surgery procedures, Dr. Kosins will easily fit the bill. He has a special interest not just in surgical rejuvenation but also in skin health and nutrition in order to treat the whole patient. Because not every patient would want surgery as a solution, Dr. Kosins applies other treatment plans that are custom

fitted for each patient.

Dr. Kosins also has experience in the development of technology in the basic sciences. He has even published his findings with globally renowned innovators with regards to stem cell technology, nerve regeneration, facial aging, microsurgery, and rhinoplasty. His articles can be found in the Aesthetic Surgery, Journal, the Journal of Plastic and Reconstructive Surgery, and the Canadian Journal of Plastic Surgery.

Dr. Kosins is able to provide various kinds of plastic surgery procedures. These include rhinoplasty; facial aging and rejuvenation; botox, fillers and Zo Skin health; fat transfer or liposculpture; breast augmentation; and body contouring.

Rhinoplasty, which was one of the procedures performed on the patient who gave the five star review, is used by Dr. Kosins to alleviate patient concerns regarding their nose and to achieve a desired appearance. His rhinoplasty practice serves not only the people in Newport Beach but also those from other parts of the US.

Dr. Kosins has categorized the rhinoplasty procedures that he performs into primary and secondary or revision rhinoplasty. Primary rhinoplasty is the patient's first operation on the nose. To come up with a specific target appearance, Dr. Kosins inquires about the patient's complaints about his or her nose. These may include the complaint that it is too big; the tip plunges when he or she smiles; the nose is crooked; it is difficult to breathe; it looks like the nose of a man; the tip has no definition; or the nose looks heavy.

Pictures of the nose are taken so that Dr. Kosins can discuss with the patient what can be done. Previously, rhinoplasty surgeons had to use destructive techniques resulting in the collapse of the patient's airways and portions of the nose years after the operation. To avoid that, Dr. Kosins reconstructs the foundation of the nose during the rhinoplasty, so that the functional areas of the nose are strengthened even if the nose seems to be more refined.

Dr. Kosins was able to complete both a medical degree and an MBA degree from the University of California School of Medicine and Paul Merage School of Business, respectively. He obtained his board certification from the American Board of Plastic Surgery and he also serves as reviewer for the rhinoplasty section of the Aesthetic Surgery Journal. After several years of working in biotechnology companies, he was able to complete a prestigious Integrated Plastic Surgery program. His training focused on Plastic, Reconstructive and Cosmetic Surgery principles and surgical methods.

Those who are interested in booking an appointment with Dr. Kosins can visit his website at <http://aaronkosinsmd.com/>, or contact him on the telephone, or through email.
