

Plastic Surgeon In Miami Shares Recent Success Stories

August 20, 2019

August 20, 2019 - PRESSADVANTAGE -

The Plastic Surgeon Miami, based in Miramar, Florida and led by the acclaimed Dr. Ramiro Morales, has shared some of their most recent success stories of Florida patients who have experienced a better quality of life following their surgeries.

Dr. Morales is a plastic surgeon who has demonstrated expertise in, and dedication to, his craft throughout his career. He is one of the few Miami surgeons that works alongside his patients, getting to know their concerns and devising the best course of action that will address their insecurities through cosmetic surgery. After amassing an outstanding number of success stories over the course of the current year, Dr. Morales and the cosmetic surgery centre have decided to share some of these stories in the hope that other Miami residents will see this as an opportunity to schedule their own consultations.

"For me, as a professional, each surgery is a new opportunity to bring joy to a patient's life," says Dr. Morales, explaining that a surgeon's priority should be to shine a light on the concerns that patients have and help them make a final decision that allows them to live on without any insecurities. He adds, "This is the part of the job that I enjoy the most. To get to know my patients and familiarize myself with their story brings joy to

me that can only be topped by the look of happiness and satisfaction that shines on their face, once the procedure has been completed and they are fully recovered."

One of the clinic's most recent success stories narrates the case of Samantha Pierce, who shares her experience with other Miami plastic surgeons before going to Dr. Morales' center. She states, "From the beginning, I felt very comfortable with Dr. Morales, as he seemed like a professional, honest, and caring individual. Before him, I went to different places, where I wasted a significant amount of money and time in procedures that did not have the results I was looking for?until a friend recommended Dr. Morales to me. I went to him for a breast augmentation and a facelift consultation. The fees were right and his advice was straightforward, professional, and honest. I have been to other cosmetic specialists, and I can tell you with certainty that Dr. Morales is the plastic surgeon Miami residents have at their disposal."

Dr. Morales asserts that to ensure his patient's satisfaction after their procedure, he tries to connect with them on a personal level, and determine the source of their insecurity and discomfort with their bodies. Once these factors have been determined, devising a plan that effectively tackles the problem areas without touching any other aspect of his patient's appearance is much easier. This is of the utmost importance as, more often than not, patients are only looking to have a specific characteristic of their body changed, rather than a complete makeover.

"By educating my patients, they can make an educated and professionally guided decision on the procedures that they are to receive," explains Dr. Morales, noting that cosmetic surgeries should not be taken lightly. "A common occurrence is that patients would come to me years after surgery with other Miami doctors, claiming that their cosmetic procedures have not aged well with them and they want to undo the surgery. It is for this reason that I make it my foremost priority to ensure that my patients understand the extent and seriousness of the procedure they are about to commit to, and only proceed once they are fully educated on the subject."

Patients travel from all over the country to visit Dr. Morales, as his practice is known to be among the best in Miami?an area that is already well regarded for its high competence in the field. Dr. Morales is able to carry out Breast Augmentation, Breast Reduction, Breast Lift, Abdominoplasty, Liposuction, Face Lift, Eyelid Surgery, Fillers, and Botox Treatments, among other procedures.
