

Ethos Spa Offers Lip Injections In NJ

August 19, 2019

August 19, 2019 - PRESSADVANTAGE -

Ethos Spa, Skin and Laser Center in Summit, New Jersey is a premier cosmetic spa serving New Jersey and New York. The spa offers lip injections and other dermal fillers that are designed to help clients to feel better about themselves without requiring invasive surgery. The spa is headed up by Dr. Hardik Soni, founder who has years of experience in his field.

Dr. Soni states, "We urge anyone in the area who is interested in lip injections to contact us and schedule a consultation. During the initial consultation, we can go over any questions that the patient may have and give them a better idea of what they can expect from their results."

Dr. Soni adds that lip injections are a much less invasive way to shape the lips without the risks and worries that are typically associated with traditional plastic surgery. He states that lip injections are a very popular dermal filler and provide a great alternative to plastic surgery, at a fraction of the cost.

"Dermal fillers are an excellent way to get the look that one wants without the risks and costs associated with plastic surgery," says Dr. Soni. "Lip injections allow the client to add volume to thin lips or to completely reshape the top or bottom lip. We can walk through what the client wants to accomplish and the best way to reach their goals, whether that involves lip injections or any of our other offered services."

A complete list of the services offered by Ethos can be seen on their website at <https://ethos-spa-skin-and-laser-center.business.site/>. Dr. Soni adds that they provide a wide range of procedures that are designed to be less invasive and less costly than plastic surgery. He adds that with many procedures, such as lip injections as opposed to plastic surgery, the recovery time is nearly non-existent. With traditional plastic surgery, patients could expect to be in recovery for up to a week or more for lip augmentation. With dermal filler injections, clients can expect to go back to work on the same day as their appointment in most cases.

?It really is a safer and just easier procedure,? says Dr. Soni. ?Dermal fillers in general are a great way to minimize scars, enhance facial features and reverse those telltale signs of aging. Whatever the client is looking to accomplish, we can discuss dermal fillers and determine if this is the right option for that particular client.?

The spa also provides a wide range of other services, including Botox treatments, CoolSculpting(R), Brazilian butt lifts, laser hair removal, tattoo removal and a number of others. Dr. Soni states that anyone who has questions is welcome to contact the spa directly to speak with a staff member and have those questions answered or visit them on their website to learn more about each specific treatment that they provide.

Those who are interested can also visit the spa on their official Facebook page at <https://www.facebook.com/MyEthosSpa>, to join in discussions from other clients and to stay up to date on any of the latest happenings in the spa, including any new treatments or procedures that they may be offering in the future. The spa?s website offers much more detailed information about their dermal filler lip injections, including the benefits of these injections over plastic surgery and an image gallery for those who wish to see the results that other clients have seen with lip injections.

Those who are interested will find other information on the spa?s website as well as an online form that enables them to input their email address to schedule an appointment. Direct contact information is also provided for those who wish to schedule their appointment via phone or email. The spa also has an official Twitter page where they regularly share updates and information regarding their latest procedures and their website has reviews from past clients who have shared their experiences with a variety of the services that they offer.
