

Need Money Now Discusses Their No Credit Check Options

September 03, 2019

September 03, 2019 - PRESSADVANTAGE -

Need Money Now, a financial company in Christchurch, New Zealand, recently discussed the no credit check financial options that they offer to customers all throughout New Zealand. The company provides financial advances that do not require any specific credit score, and all through an online application process.

A representative for the company says, "For those who need financial help quickly, we have an easy online application that takes just minutes to fill out."

The company states that their no credit check application process makes it much easier for those in need to get the financial assistance that they require for any of life's emergencies. Many consumers are unable to acquire short term financial assistance through traditional banks because they have credit scores that are below average. Many banks require at least a 650 or above credit score in order to approve financial applications.

"It is difficult for many consumers to get the funding that they need for minor emergencies," says the company representative. "People face financial emergencies all of the time. Car trouble, sudden illness, even

an unusually cold winter that can cause electric costs to skyrocket can all cause financial stress. Not being able to secure help through traditional banks can be difficult, which is why we have opted for a no credit check process. As long as our customers meet certain criteria, they are eligible to apply and receive assistance.?

The company states that their criteria is not at all difficult to meet. Consumers must have a full time job and show that they can easily pay back the funding that they receive. They must be at least 18 years of age or older in order to apply and they must live in New Zealand.

?That?s about it,? says the company representative. ?The amount of assistance to which consumers will qualify will depend on a number of factors, including their actual income. There is an income requirement in order to qualify. Customers must make a specified amount each paycheck in order to apply, but most customers meet this criterion easily.?

Those who are interested in learning more about the application process can read through all of the specifics at <https://sites.google.com/site/badcreditloansnz/>. The company states that they have developed a process that is as fast and easy as possible for consumers to apply. The company representative states that many consumers are already dealing with stress in their lives due to financial difficulties so they have fine tuned their application process to help eliminate some of that stress.

The online application requires no paperwork or document signing. Consumers do not have to print anything and they do not have to visit a storefront location. Everything is done completely online. Financial agreements are signed using a trackpad or mouse and the application can easily be accessed through any desktop or laptop computer, tablet or mobile phone. All documents that are required in order to process the application can be safely stored on the company?s website. The representative states that they use the very best in online security in order to fully protect all of the information that their customers supply.

?Our goal is to provide the financial assistance that our customers need without making it more stressful with a lot of requirements or a credit check,? says the company spokesperson. ?Consumers who need assistance can use the online application today to apply for up to\$1,000 in funding and take care of those financial emergencies today.

Those who are interested in learning more can do so on the company?s official website. All New Zealand residents are permitted to apply for funding provided they can prove their income and meet the other criteria set forth in the application. The online application is available around the clock so customers can apply whenever they need and there is no waiting for the company to open the next day. Customers can apply for

and receive their funding at any time of the day or night.
