

Implant Centre Martinko Set To Launch New Customer Relationship Management Service

August 20, 2019

August 20, 2019 - PRESSADVANTAGE -

Trieste, Italy based cosmetic dentistry provider Implant Centre Martinko (ICM) is pleased to announce that they will soon launch a new Customer Relationship Management solution, designed to help customers have an even better experience at the clinic. The implant centre is known for offering some of the best service in the field of diagnostics, implantology, dental surgery, prosthetics, periodontics and cosmetic and dental surgery. Their new customer relationship management initiative is intended to make visiting Implant Centre Martinko, an already pleasant experience, more comfortable and enjoyable.

Having healthy teeth is very important to every person. Not only does a beautiful smile boost one's self esteem, it is also only possible to achieve through good oral health. Regular visits to a dental care professional can help one achieve exactly the kind of healthy smile they want, and Implant Centre Martinko strives to help many people achieve perfect dental health. For instance, it is possible to lose a tooth or even lose multiple teeth over the course of one's life to any of a number of causes, including trauma, gum disease, and age. This makes regular visits to a knowledgeable, skilled dentist an absolute necessity as they have the knowledge and tools to detect, prevent, or fix whatever dental problems one might have.

A dental implant is an artificial substitute for a tooth. Missing or severely damaged teeth can be replaced using implants, which is one of the areas the dentists at Implant Centre Martinko specialise in. At Implant Centre Martinko, they make use of a type of anchor made of titanium, placed in the maxillary or mandibular bone, which allows the dental implant to act the way a normal tooth does. Often, patients look for an implant that looks and works the way a natural tooth would and dental implants meet all these requirements.

Keeping one's implants clean is important, however, and is relatively simple provided one follows the instructions laid out by their dentist. "Oral hygiene in standard and mini dental implants is extremely important" as are regular dental checks," says the clinic. "If the patient respects the hygienic rules and follows their dentist's advice, a dental implant is a permanent solution. In most cases, it is a life-long solution. For all these reasons, a growing number of patients are opting to replace one or more teeth with dental implants." Read more at <https://implantcentremartinko.business.site/>.

As one of the most modern dental practices in the region, Implant Centre Martinko is equipped with a selection of the best and most advanced equipment, offering modern solutions to a variety of patient issues. The dental centre takes measures to ensure that every patient feels comfortable during each of their visits. At ICM, patients experience a peaceful atmosphere as they receive the highest quality dental care from some of the best dentists in Italy and even the world.

A number of patients have left reviews praising the implant centre for its high quality service and commitment to patient comfort. As one review states, "Just returned from the Implant Centre Martinko and I must immediately thank Dr. Borna for giving me back my smile. Thanks are also extended to all the assistants and collaborators of the clinic; you are fantastic and you have so much kindness and humanity."

Another patient who was very satisfied with the treatment they received stated, "I returned today and I have no words to express my great satisfaction and emotion. I thank you all very much" in particular Dr. Borna, a serious, humane, and incredible professional! Not least all the staff, helpful and welcoming. In particular, Tonja and Doris as well, who always welcomed me as a sister. The stay in Zagreb was magical from all points of view. I fell in love with you!"

Trieste residents and all those interested in receiving high quality dental care are encouraged to visit Implant Centre Martinko today.
