

Life On Rides Receives Overwhelming Response After The Launch Of Their Presta Bicycle Valve Pump

August 05, 2015

August 05, 2015 - PRESSADVANTAGE -

Life On Rides in Edmonton, Alberta, recently released their newest product, a Presta valve pump for bicycles, and it has taken the Amazon world by storm. Owner of Life On Rides, David Walters, recently released a statement about the overwhelming response that the Presta bicycle pump has received.

"We actually fear running out of stock because the demand for a premium quality bicycle pump is just too much. We've already run out of stock twice and are working diligently to ensure that all of our customer's orders are filled."

Since its launch, the Presta bike pump has received more than 70 raving 5 star reviews, and those numbers are growing every day. Cycling enthusiasts are considering the bike tire pump a must have accessory on their bikes for any emergency.

"Puts your mind at ease when you are going on a long ride," says one Amazon customer. Another remarked that, "It's so lightweight and easy to mount. I really can't believe how quickly it works for being such a small pump."

The pump is powerful and easy to use, and offers 100 PSI capacity, which gives bikers enough power to quickly inflate tires during an emergency. It has been rated as the number one bike pump by cyclists due to the premium CNC aluminum construction, which ensures that the pump will last a lifetime.

The pump is designed to be Presta and Schrader compatible, and includes a free instructional guide that shows users how they can easily switch between the two bicycle brands in just a matter of minutes. It also comes with needles for soccer balls, basketballs, and other sporting equipment.

What makes it the number one choice for many bikers is its compact design. It can fit in a biker's pocket easily, although it also comes with a frame mounting kit that will mount directly onto the bike.

"We're just a small, family owned business and saw a need for a pump that had compatibility, convenience, and quality construction," says Walters. "That's why we decided to release this Presta Valve Pump on Amazon.

To celebrate the successful launch of the Presta valve pump, Life On Rides is running a 20% off customer appreciation sale for a limited time. Customers can use the code MBP20PRA to receive the discount at this Amazon link - <http://www.amazon.com/Rated-Mini-Bicycle-Tire-Pump/dp/B00U8ICYPS>.
