

Life On Rides Announces Customer Appreciation Sale For Best-selling Bike Tire Pump

August 05, 2015

August 05, 2015 - PRESSADVANTAGE -

David Walters, owner of Life On Rides in Edmonton, Alberta, recently announced that the company will be hosting a customer appreciation sale for their popular bike air pump. The sale includes a 20% off coupon code, as a gift to customers, due to the company running out of stock recently.

Walters released this statement, "We had a lot of upset customers who wanted to buy more pumps for their friends, but they couldn't. This is our way of rewarding them for being loyal customers. Our main goal is to keep our customers happy."

The bicycle air pump has received rave reviews, more than 70 reviews with 5 stars, since its launch on the Amazon marketplace. Cycling enthusiasts are considering it the number one must have accessory for their biking emergencies.

"They're so loyal," says Walters. "We were almost a little humiliated because we just couldn't keep up with the demand. I mean, we expected it to be a popular item, but this was a bit overwhelming. We're just a small family based business and we seriously underestimated how many people would want this Presta valve

pump on Amazon."

Life On Rides offers a lifetime replacement warranty and a full 100% money back guarantee on each purchase of their bike air pump.

The bicycle tire pump is lightweight and durable, and is Schrader and Presta compatible. It takes just minutes to switch over from one brand to the next, and it is designed to provide optimal function while never damaging the bike tire. It is rated as the number one bike tire pump by cyclists.

One customer stated, "I purchased this mini bike pump to use on my grandson's bike. The tires are small so I figured it would do the job. It definitely exceeded my expectations. You can attach it to your bike if needed or it is small enough to throw in a bike bag. I was very happy to purchase this with a coupon code."

Life On Rides is offering this customer appreciation sale for a limited time through this link <http://www.amazon.com/Rated-Mini-Bicycle-Tire-Pump/dp/B00U8ICYPS>. Those who would like to take advantage of the discount can use coupon code MBP20PRA.
