Mandich Property Group Explains Benefits Of Selling A House For Cash In Blog Post

August 21, 2019

Marietta, Georgia - August 21, 2019 -
Mandich Property Group, a business based in Marietta, Georgia, has announced that they have recently published a new blog post that explains the benefits of selling a house for cash. In the article titled, ?Benefits Of Selling A House For Cash,? it is explained that there would be no waiting for the bank to approve an application for financial assistance for an end buyer who does not have the full amount. They also want to announce that they are ready to buy houses for cash in Woodstock, Georgia.

Natasha Mandich, a spokesperson for Mandich Property Group, says, ?We?re happy to announce that we have recently published an article explaining the advantages of selling a house for cash. This is part of our effort to provide helpful content for people who suddenly find themselves needing or wanting to sell their home, for whatever reason.?

She continues, ?If you are going to sell a house in Woodstock, why not sell it for cash? Our company buys houses with cash and in a very short amount of time! You will not have the stress that goes along with the unknowns that go along with the traditional way of selling your house. No worries of the sale falling through at the last minute or any other stressors that go along with selling a house.?

According to the blog post, the process of selling a house for cash is drastically faster. Once the price has been agreed upon with the buyer, all that is left to be done is the paperwork, and then the payment can be transferred to the account of the seller. All of that can happen in just one week or two, depending on how fast the details can be resolved.

On the other hand, selling a house the conventional way would take a lot of time. Even the process of looking for a dependable realtor will already take a lot of time. And then there would be the delay brought about by banks who would take a lot time in deciding to approve the provision of financial assistance to the buyer.

Furthermore, in the traditional way of selling the house, a realtor will require a percentage commission from the selling price. In contrast, with a cash purchase that doesn?t require a realtor because it is a direct transaction with an investor like Mandich Property Group, the full amount of the selling price will go to the seller.

Indeed, selling homes to cash buyers has become a trend. In an article written by Kate at Property Sauce, she says, ?It?s estimated that one out of every four homes is sold to cash buyers. This is a trend that has continued over the past several years.?

There is one other benefit that Mandich Property Group offers when buying houses for cash. They are willing to buy houses in any condition. It can be an ugly house or a house that requires expensive repairs. They will still offer a price for it and help the owners get the property out of their hands.

There are only three basic steps to follow when selling a house to Mandich Property Group. First, the property owner calls the company or submits relevant information online. The information will be used by the company to determine the fair price that they can offer for the home. The next step will be for a company representative to visit the house for sale and then make an offer. It is at this point that the property owners can ask questions if they are still unclear about certain things. It is also at this time that they can accept or reject the offer. The third and final step will occur after the owner has accepted the offer, which is the closing that will occur in just a matter of days.

Those who would like to learn more about selling a house fast for cash in Woodstock, GA, can visit their website or contact them through the phone or via email. They are open for business from 9:00 am to 8:00 pm, from Monday to Friday, from 9:00 am to 3:00 pm on Saturdays, and from 1:00 pm to 5:00 pm on Sundays.
