

Richardson Pain & Wellness Offers Conservative Pain Management in Richardson, Texas

August 20, 2019

Richardson, TX - August 20, 2019 -
Richardson Pain & Wellness wants to help patients get back to being themselves again and start living their lives to the fullest with renewed health and wellness. Their conservative pain management therapies are designed to treat chronic pain, bring renewed fervor and increased energy levels in patients. The doctors at Richardson Pain & Wellness have years of experience designing custom-made wellness plans that are tailored to each patient's individual needs and wants in order to ensure a truly integrated approach. Conservative pain management treatment options at Richardson Pain & Wellness also include customized exercise plans and rehabilitation therapy.

"After confirming diagnosis of Chronic Lyme Disease I made an appt at Richardson Pain and Wellness. The staff is very professional, but make you feel comfortable and relaxed. Their approach to care was very sensible and I appreciated their honesty with choosing the correct direction to take with getting well , since it will be a long process. Will recommend to friends and family," says Cheryl Kobza, Richardson pain & Wellness patient.

"I was referred to Dr Z. by two few friends of mine, for my back pain. So I decide to give him a try. From the

time I came in it felt like family(Connie). Like I was not just a number, but a person genuinely cared for. Dr Z took xrays and show me I had a herniated disk. Thank God it was still reversible no surgery needed. They put together a rehab plan which I gave a 110% to and my pain is gone and it has been over 3 month. I thank God for each and every one of them Dr z, Connie, Amanda, Amy, Sergio, and Monica and any other members of the Dream team I might have missed. They are now not just my goto for back pain, massage, or even checking my hormone levels, but I consider them all my family," says Kevin Rogers, Richardson pain & Wellness patient.
