

## **Alexandria Landscaper Promotes a Video That Talks About a Recent 5-Star Review They Received**

*August 21, 2019*

August 21, 2019 - PRESSADVANTAGE -

Rockwood Landscape of Alexandria is a company that specializes in creating unique outdoor living spaces. They incorporate new hardscapes, softscapes and water features into existing landscapes to help give that landscape a whole new look and feel. It's a locally owned and family run business that's known for putting the needs of their customers first. Evidence of this comes in the form of a recent 5-star review the company received. The company was so pleased about this review that they made it the focus of a video they just released.

The owner Mike Hvezda had this to say in the video, "Our company's number one goal is always to make our customers happy with the work that we provide for them. When someone takes the time to write a 5-star review we really like to share it. As much as we like to think we are doing a good job, positive reviews like this one certainly reaffirm that. It pushes us to work harder and we take a lot of pride in the fact that we now have another satisfied customer."

In the review mentioned in the video, Mandy Brower wrote this about her recent experience with Rockwood Landscape, "I have already had people stopping by and asking about our landscaping! I was very happy with

the communication on the timeline, the plan and with the professionalism of Mike and his crew. Mike was also very accommodating to my changing plans and made suggestions that helped them work even better. I look forward to having them complete more work for me in the future.?

Anyone wishing to see the actual review shown in the video can follow this [Rockwood Landscape Review link](#).

Hvezda went on to add, "Positive reviews like this one show us that careful job planning, proper communication, and quality landscaping work definitely lead to happy customers. It's something we take much pride in and we fully realize this positive word of mouth will help keep the business growing too."

There are also several other positive reviews that have been posted on the same Google business page as the review that was talked about in the video. All of the writers of these reviews have also rated Rockwood Landscape at 5 out of 5-stars for the services that the company has provided for them.

On that same Google business listing, there is also a map of the company's approximate service area. This map indicates that those in the Sauk Centre, Glenwood, Morris, and Long Prairie, Minnesota areas can also take advantage of the many different landscaping solutions that Rockwood Landscape offers.

One of the more unique methods of satisfying customers that Rockwood Landscape uses is their 3D renderings of what a finished project should look like. This helps the customer get a better feel for the project and also allows them to make any adjustments they feel are necessary before the project begins. Rockwood Landscape likes to work closely with its customers to help them create an area that is unique and perfectly matches their lifestyle.

Hvezda also noted that another key to their success is the way they like to mix different textures and accent colors together. This makes any outdoor living space they help to create really stand out from its surroundings.

The list of landscaping services that the company offers is an extensive one. It includes paver, retaining wall, and fire pit installations. Rockwood Landscape specializes in landscape lighting and the planting of trees, shrubs, and perennials too. They are also well-known for the signature water features that they help create for their customers. Other landscape services that they have include the delivery of landscape materials, skid loader and mini excavator service, yard prep and hydro-seeding.

Those who are interested in getting an outdoor living space or other landscaping in Alexandria MN done, can take a look at Rockwood Landscape's website and learn much more about what this company has to offer.
