Real Best Friend, a small family company based in Bucharest, Romania has launched their newest product, a retractable dog leash, on the Amazon marketplace. Customers who have purchased from Real Best Friend are giving the dog leash rave reviews; many have used it for their cats.

"This is perfect for both of my dogs. I bought two, one for my small pug and the other for my rather large boxer. It works just as well for the boxer as it does for the pug. Other leashes that we've tried just weren't strong enough to support the weight of a rather rambunctious boxer pup. I was pleasantly surprised, and now our evening walks are a breeze."

The leash is ideal for small pets, but has been designed to accommodate pets up to 110 pounds. It is designed for completely functionality, and includes a lock and unlock button so pets can be allowed to roam a bit freely. The leash extends to 14.5 feet, giving plenty of room to roam.

The retractable leash, which can be found at <http://www.amazon.com/dp/B00VF867LW>, is backed by a complete replacement warranty. The leash features a comfortable grip that enables hours of pet walking, without wearing down the hands. It is strong enough for powerful dogs, and constructed of material that cannot be chewed through easily, which is often a problem with ropes and other leashes. Pet owners simply have to clip and then unclip the leash, making it one of the best retractable leashes on the market with regards to ease of use.

Anna Lister, founder of Real Best Friend, recently had this to say about the company's products: "We love dogs, and we want nothing more than to give pet owners the very best in both products and customer service. We were surprised and pleased to also see the interest of cat owners in our leash, this encourages us to also develop more products for them."

Real Best Friend is a small family owned and operated business that provides pet supplies to owners around the world. Their latest product is available exclusively on the Amazon marketplace, and comes with a 100 percent money back guarantee. "We want to ensure that our customers are as satisfied with our products as

we know their pets will be," states Lister.
