

Better Lawns & Garden Advises on Weekly Lawn Care Chores

August 21, 2019

August 21, 2019 - PRESSADVANTAGE -

Better Lawns & Garden advises that now is the time to begin weekly lawn care tasks for a beautiful lawn and garden all spring and summer long.

There are a number of steps that homeowners can take to ensure lush green landscaping throughout the spring and summer months. Knowing the proper schedule and technique for fertilizing, mowing, edging, and watering are essential. Repairing the ordinary lawn damage that arises from regular usage and play requires a regular application of fertilizer, seed, and mulch in proportions specific to the type and size of the damage. Among the tools needed for weekly lawn and garden care chores are hedge trimmers, mowers, leaf blowers, electric tillers, wheelbarrows, and lawn edgers. Better Lawns & Gardens offers reviews of these tools, as well as advice for the best use of these products, which helps homeowners make the most of their time and resources for maximum productivity.

For homeowners without the time to commit to a regular lawn care routine, outsourcing the task to a quality lawn care company can be the best way to achieve a beautiful lawn and garden while still having the time to enjoy it with friends and family.

About Better Lawns & Garden

Better Lawns & Gardens is a resource for homeowners seeking reliable advice about outside projects related to lawns, gardens, and yards from industry experts. The company provides detailed reviews of lawn and garden products to ensure consumers are able to knowledgeably choose the right tools for every job. Better Lawns & Gardens includes industry pros from across the country, so consumers can trust their advice and insight from the Northeast to the Southwest, and everywhere in between.

The experts of Better Lawns & Gardens have decades of real-world experience. They are skilled woodworkers, hardware store owners, and landscapers who still spend as much time as they can on home, lawn, and garden projects, continuing to develop their own expertise to share the latest on industry trends, as

well as sharing tried-and-true tips with homeowners of all experience levels, from novice to expert.

And beyond just lawn and garden care, Better Lawns & Gardens is committed to helping consumers repair, maintain, and enjoy their outdoor spaces, too. Product reviews and advice also covers equipment like chainsaws and generators, as well as grills and smokers. These experts weigh in on more than just spring and summer tasks and tools; they also have tips for efficient and effective snow removal that won't ruin a homeowner's landscaping come spring.
