Best Customized Life Insurance Plans In Calgary Alberta Now Offered By Insure 2 Day

July 29, 2015

July 29, 2015 - PRESSADVANTAGE -

Calgary Alberta insurance broker Insured 2 Day prides itself on offering the best customized life insurance plans in the Alberta province of Canada. They offer insurance with a difference, allowing customers to find the plans that are best suitable to both their health and financial needs. In so doing, they want to ensure that every resident of the Alberta can have themselves and their family properly protected. Further information is available on their website on www.insured2day.com.

Gary Wojciechowski, from Insured 2 Day, says, "Our service is truly unique. We review someone's current medical history and offer policies based on that and on their financial needs. In so doing, they can avoid being turned down for insurance, which will save them a lot of money in the long run as well."

Insured 2 Day offers free no obligation quotations online, over the telephone and in person. They have two customized solutions to make sure people are able to get the service they need. The first is the 'Solution Finder', which is for those people who have no idea of the type of insurance policy they require. The second is the 'Health-IE check', which is for those people who know the type of policy they need and are simply looking for the best price out there.

Their customized life insurance plans follow five easy steps. Firstly, it looks at what is important to the customer in terms of what they want to have protected. "Not everybody wants the same from their life insurance," adds Gary Wojciechowski. "Some simply want to have their mortgage covered, for instance, whereas others want to leave their family with a nest egg. Understanding needs is vital to the insurance process."

The second step is to complete the Health-IE check, which helps find what people are actually eligible for. Then, customers can review the solutions that are available to them and apply for their chosen policy online or over the telephone. Finally, they are approved for their chosen solution and are insured. In so doing, Insured 2 Day helps everyone find the right insurance for their needs.
