The Truth About Cancer Creator Highlights Thai Clinic?s Holistic Cancer Treatment Program

August 26, 2019

August 26, 2019 -
Phuket, Thailand ? The Truth About Cancer (TTAC) creator and producer Ty Bollinger shines the spotlight on one of Thailand?s top alternative cancer treatment centers.

Ty Bollinger sits down with LifeCo?s Dr. Thomas Lodi. Ty Bollinger, creator and producer of The Truth About Cancer, was recently in Thailand to interview The LifeCo Clinic consultant and integrative oncology expert Dr. Thomas Lodi on the center?s holistic approach to cancer treatment.

In a new video, Bollinger sat down with The LifeCo Clinic consultant and renowned integrative oncology expert Dr. Thomas Lodi to discuss the holistic therapies used in the center.

The cancer care center uses an integrative approach which incorporates scientifically proven alternative treatments with a raw plant-based nutritional focus and natural healing modalities, designed to strengthen the body so it can tap into its own innate healing abilities.

Among these therapies is the insulin potentiated botanical therapy which, according to Dr. Lodi, ?fools the cancer cells? into consuming something that will eventually kill them. And because they are targeted metabolic botanical therapies, they will not harm the patient?s body, in the same way that conventional treatments, like chemotherapy, do.

During the interview, Dr. Lodi also shared The LifeCo clinic?s healing protocol which focuses on three aspects?stopping the production of cancer, targeting and eliminating the cancer without harming the body and stimulating and awakening the immune system.

?When a person first arrives at our healing center, they are put on a non-sweet green juice cleanse and/or master detox,? he explained. ?While the doing that, we have them doing colon hydrotherapy, electro lymphatic therapies, massage, walks on the beach, yoga and mindful stretching.?

The special visit to LifeCo?s Phuket clinic is part of a TTAC follow-up video series featuring cancer treatments and health restoration methods used in Asia. Dr. Lodi?s interview is included in the sixth episode entitled Thailand: Land of Smiles.

In a quest to learn more about the healing powers of Eastern medical protocols, Bollinger and his team also travelled to Japan, Taiwan, Singapore, Malaysia, India and the Philippines where they talked to experts like Dr. Lodi.

Bollinger?s journey to find effective alternative cancer treatment options began after losing several family members to cancer. A well-regarded author, researcher and health freedom advocate, Bollinger is also known for his books including Cancer?Step Outside the Box which is now on its sixth edition.

?Here at the LifeCo, we believe in using the best of what we know from both Eastern and Western medicine to create an individualized treatment plan that gives patients the best chance of survival and health restoration,? Dr. Lodi added. ?We?re happy to have the opportunity to reach a wider audience through Ty?s platform. We hope to reach out to more patients so they, too, can experience the healing journey that we offer.?

To learn more about The LifeCo?s holistic cancer treatment approach, visit their website to schedule a Skype consultation or watch the interview here.

The LifeCo Clinic is an alternative cancer treatment center in Thailand. Located in the pristine tropical foothills in the north of Phuket, it promotes and practices integrative cancer therapies.
