Columbia based Dependable Homebuyers has just got another awesome review from a homeowner. The most reliable We Buy Houses company in the city has been appreciated by Mr. Timothy Kelly for excellent service and professionalism. Mr. Kelly wanted to sell his house within a short span of time. He contacted the real estate investment firm owned by Evan Roberts and sold the property sooner than he expected. He said that the whole process was effortless as the team working on the sale had the expertise to completely avert all usual complications. Mr. Kelly is ecstatic with the deal and wholeheartedly endorsed the services of Dependable Homebuyers.

Evan Roberts expressed his gratitude while responding to the review. He said that his entire team is always dedicated to help homeowners. His team of real estate experts simplifies the whole process of selling, right from viewing and inspection to working on the paperwork. Roberts says that his firm has been receiving five star reviews from its clients ever since the inception of the company. Another client, Ms. Megan Donovan recently spoke highly about their services and had similar sentiments as Mr. Kelly. Ms. Donovan praised the

prompt response and assistance offered by the team. She had plenty of queries due to her relative unfamiliarity with the process of selling a house. She did not have to hire a real estate agent or wait for months with her house listed online to get a closing offer.

Ms. Donovan is not the first one to highlight the proactive approach of Roberts and his team. Many clients have said the same thing. Roberts and his team really respond promptly. They do not hold back any information. In fact, they provide more information than necessary. This helps homeowners to make wise decisions. The company does not work via intermediary. This enables them to provide a true picture of the possibilities and homeowners find selling much more convenient with uncertainties and ambiguities out of the way. Ms. Donovan said that the team was always accessible. She contacted them numerous times with different queries and they always explained everything in great detail.
