

# Remove A Pool Of Philadelphia Offers Professional Swimming Pool Removal Services In Pennsylvania

*September 18, 2019*

September 18, 2019 - PRESSADVANTAGE -

Pennsylvania based Remove A Pool Of Philadelphia is pleased to inform the community that they are offering professional swimming pool removal services to residents of the greater Philadelphia area. The company specializes in both partial and full swimming pool removal, as well as demolition jobs.

Remove A Pool Of Philadelphia is a fully bonded and insured company who has over 25 years of professional experience in the demolition and removal of swimming pools in Philadelphia. "We are proud to announce that our team of demolition experts is fully trained to safely and effectively operate all of our heavy equipment. With more than two decades of experience in the industry, we have already developed the safest and most comprehensive solutions to remove undesired pools while remaining minimally invasive with respect to your property and its surroundings," says S. Gordon from Remove A Pool Of Philadelphia.

Meanwhile, Gordon explains that partial pool removal is a cost-effective way to take-out an unwanted in-ground swimming pool since it is designed to deliver a simple and durable solution to homeowners who are looking to have their old swimming pools filled in. He also points out that partial pool demolition involves less time, skilled labor, and equipment, making it more economical than having the entire pool removed. Furthermore, a partial pool removal project can be completed in just a few days, minimizing disruption to the property and its neighborhood. "Our partial pool removal services include all the demolition permits, labor, materials, and equipment needed to complete your project on time and on budget," says Gordon.

He adds that the process also includes disconnecting and capping off all utility lines leading to the pool as well as siphoning out all the standing water in it. "Drainage holes will then be punched at the bottom of the pool liner to protect your property from flooding, and we will demolish the upper 16-36 inches of the pool structure and place all the demolished materials inside the pool," says Gordon. "Lastly, we will backfill the entire pool liner with sand, gravel, and topsoil as well as level out the entire project site to create a safe and ready-to-use space where you can expand your lawn, create a garden or install a patio."

On the other hand, the company's full pool removal is a comprehensive service that requires that they gather

all key data about a home and its landscape, obtain all permits and necessary paperwork, and set up client meetings to discuss the whole process, including how all of the heavy equipment will be moved over to the property without causing any damage to its landscape. In addition, they handle the related demolition, cleanup, hauling away of all demolished materials, and even the disposal of waste materials in an environmentally friendly manner. As with a partial pool removal, the company will then backfill the void with sand, gravel, and topsoil, and level the project site.

?Please do not hesitate to call our service hotline when you are in need of fast and professional Philadelphia Pennsylvania swimming pool removal services. After setting up an appointment, we will visit your home, evaluate the work that needs to be done, and provide you with same-day cost estimates. We are also more than willing to answer all your questions and address any concerns you might have,? affirms Gordon.

Remove A Pool Of Philadelphia is one of the most trusted pool demolition companies in the area, based on a number of positive reviews and recommendations the company has received from their previous clients.

One of their satisfied clients, K. Pal, said, ?We are extremely happy with what the Remove A Pool team did with our backyard. We were able to set up an appointment quickly and they also gave us a reasonable quote. The demolition crew laid out the process clearly before starting to demolish our pool. We had an area of plants that we want to keep and they were able to work without causing damage to the plants. Overall, the team from Remove A Pool were very polite and hard working. They are experts when it comes to removing pools and getting the job done fast. I highly recommend them.?

More information can be found on the company?s website. Interested parties who require swimming pool removal in Cherry Hill and the surrounding areas may also call their service hotline to request an appointment and a free quotation. Furthermore, homeowners may connect with Remove A Pool Of Philadelphia through their official social media pages to stay up to date with their latest news and important announcements.
