

## **CBD Oil Store Opens New Location In Las Vegas**

*September 04, 2019*

September 04, 2019 - PRESSADVANTAGE -

CBD American Shaman, the fastest growing CBD-only store franchise in the US, recently opened their second CBD oil store in Las Vegas. Located in Southern Highlands, the store exclusively sells CBD products (no marijuana), that are well known for the holistic and therapeutic benefits they offer individuals suffering from chronic pain, stress, anxiety and other conditions.

CBD (cannabidiol) is a natural chemical compound found in the hemp plant. Unlike the THC in marijuana, CBD does not get the user "high" and is legal in all 50 states.

In fact, CBD supports a powerful master regulatory system in the body called the Endocannabinoid System (ECS), which cannabis researchers first discovered in the 1990s. All mammals have an Endocannabinoid System, which is why CBD products have the potential to help both humans and pets. The ECS is responsible for regulating and balancing the major systems in the body, including the brain, nerves, hormones, and immune system to ensure optimal health. CBD interacts with millions of cannabinoid receptors and neurotransmitters found all throughout the body, which also makes its own cannabinoids. They are also found in nature, including in the hemp plant, which contains huge quantities of natural cannabinoids.

When announcing their expansion in Las Vegas, store co-owner Shawn Spivak said, "We are excited to

bring our unique nano-enhanced and water-soluble CBD products to the Southern Highlands neighborhood of Las Vegas. We are here to answer your questions about the benefits of CBD oil, and we offer free samples to anyone that comes into our store. Most people are amazed to feel relief from pain or anxiety within just five minutes of trying our CBD oil products.?

He continued, ?Our CBD works faster than regular CBD oil because we use a proprietary manufacturing process that relies on nanotechnology to reduce CBD particle size from 4,000 nanometers to less than 100 nanometers. This allows our CBD to be mixed with water, so it works faster, lasts longer, and is up to 10 times more effective in the body when compared to regular CBD oils.?

CBD American Shaman has a unique local community approach. All stores are designed with a small and warm local footprint in order to ensure that every member of the surrounding community feels comfortable stopping by to get free samples and learn about the natural health benefits of CBD oil. Their many 5-Star customer reviews speak for themselves. One such review from customer Cathleen Y. says, ?First time trying CBD to help with some sleeping problems. Shawn was very helpful and patient with me! I got the water soluble pina colada, looking forward to try the gummy bears and lotion!?. Despite being a new arrival in the area, CBD American Shaman also enjoys a perfect aggregate score of 5/5 Stars on Yelp.

With a reputation for being forthcoming, transparent, and helpful, Spivak also makes an attempt to be on hand to help his customer settle any doubts or inquiries they may have. He noted that, ?Many of our customers are new to the industry. They may have done their own research prior to visiting us at our store, but reading something online and having it explained to you by someone who lives and breathes the subject are two completely different experiences. I always try to make myself available to help newcomers out?but if I?m not there, our staff are all very capable answering questions and explaining the potential benefits of CBD, as well as any precautions you should take.?

Those interested in purchasing CBD products or learning more about CBD benefits and uses may contact Shawn Spivak of CBD American Shaman Las Vegas. You may also visit the company?s website and follow them on their social media pages to stay up to date with their latest news, offers, and updates. Additionally, CBD American Shaman invites customers to watch their video success stories on Youtube and other platforms to see the positive impact CBD oil has had on its customers.
