Book Fast With Security Now USA?s Online System

August 31, 2019

August 31, 2019 -
California- Customers of Security Now, a leading security provider in Sherman Oaks, California can now book with ease through its online booking system.

The online booking system of Security Now allows customers to book and schedule guards for their homes or businesses in just three easy steps.

First is choosing the time and location. Customers can browse and select the date, time and place, and include any special request for their guard needs. Second, customers must choose whether they need armed or unarmed security guards. And lastly, customers can track and manage their hired guards.

For its track and manage feature, customers log in through a portal where customers can track guard progress, view incident reports, and communicate.

Through the system, the guard?s location and history are marked on a map. With that, management can conveniently track patrolled areas. The system also allows real-time incident reports that would enable an immediate resolution to the problem. The system will also serve as a channel for communication between the employee and the guards.

?At Security Now USA is the most Best Security Agency in CA , our professionalism and experience is what separates us from the competition. Our security guards have backgrounds in law enforcement or the military. We take great satisfaction from helping employers deter employee theft and fraud and our customers compliment us on our professionalism and the rapport that we have with others that share our experience and backgrounds.

Apart from the system, Security Now USA takes pride in its pool of security guards. The company was founded by people with years of experience in security, state, and federal law enforcement/military. All guards of Security Now are likewise licensed, bonded and insured.

?We firmly believe that the most valuable resource we offer is our team members. Each member is licensed by the State of Ohio Department of Public Safety PISGS to provide armed or un-armed services you need,? as stated on the company?s website.

Security Now USA provides security solutions for schools, commercial districts, malls, banks, and hotels, among others.
