

Easy Application For Laptop Rental Now Available To Tanah Merah Qld Residents

August 30, 2019

August 30, 2019 - PRESSADVANTAGE -

Molendinar, QLD based Easy Payment Options, in partnership with Easy Rent Laptops, is pleased to announce that they now offer residents in Tanah Merah a simplified application process for laptop rentals. The rental option is meant to give computer users more flexibility with their finances and working arrangements. Get started by visiting the following link: <http://urlnk.net/tanah-merah-qld>

Easy Payment Options spokesperson Richard van der Velde says, "There is virtually no downside to renting a laptop with Easy Payment Options. While we offer a range of laptops that stretches from entry-level devices to the latest and greatest in technological achievement, we understand that even entry-level laptops can represent a significant investment. This is especially true if they have never used laptops before and are therefore unaware of the vast array of benefits that such devices bring."

Laptops, he points out, have the virtue of being inherently mobile devices. Depending on the customer's unique requirements, Easy Rent Laptops can suggest a device that is better suited for various tasks. For instance, those who need to use Microsoft Office applications (such as Word and Powerpoint) while traveling may benefit from a laptop with an extended battery life that allows them to get work done on the train or at the

airport. On the other hand, users who simply want to browse the internet and consume their favourite media can opt for a device with a better screen and built in speakers. "Of course," notes van der Velde, "higher end laptops will combine all of these functions into one package. We leave that decision entirely in your hands, but we will always try to point you towards an item we believe can help you the most while staying within your budget."

Customers who elect to rent a laptop need never worry about expensive repayments. Even if they already have a laptop that now lags behind its modern counterparts, upgrading is as easy as browsing Easy Rent Laptops' wide selection of devices and using Easy Payment Options to facilitate a quick and hassle free rental scheme. In addition to the smaller financial investment, such customers also have the vast advantage of never feeling buyer's remorse. If a laptop they rent does not suit their specifications or preferences, they can simply return it and select a different one.

While customers may browse any company's products for the devices they want, Easy Payment Options maintains a team of trained personnel who know the ins and outs of the devices they offer. As a result, customers who rely on Easy Payment Options may reach out for assistance if they prefer to thoroughly discuss the merits of any devices they have their eye on. According to van der Velde, this enables them to easily find and settle on a laptop agreement that suits their requirements and budget. The actual payment process is also designed to be as intuitive and supportive as possible. For instance, Centrelink recipients can easily set up their own deductions via Direct Debit or CentrePay.

"Our customers should also be aware that they may buy the laptop from us at any point," he says. "We've had many customers come to us this way, saying that they fell in love with the devices they rented and wanted to purchase them outright. Naturally, we're happy to oblige." He continues, "While the sheer variety of brands and models we offer means that we have something for everyone, it can be difficult for our customers to figure out which specific devices suit them the best. Fortunately, you can talk to a real person from our team to put you on the right track. We have a great track record of putting people in touch with devices that slotted perfectly into their way of life." Once the paperwork is finalised, customers may take their laptop home to explore its capabilities at their leisure.

Those who wish to learn more about Easy Payment Options, or want to start looking for their next laptop, may contact Richard van der Velde. Furthermore, they may connect with the company through their Facebook page to follow up on any quick inquiries, or visit <http://urlnk.net/srentlaptop> Company ABN 44 010 413 215 - Aust Credit License 388677.
