Los Angeles, California based law firm Los Angeles DUI Lawyer is reaching out to the wider community to raise awareness of local drunk driving laws. The firm has many years of experience in the field as well as a comprehensive understanding of drunk driving laws and the DUI industry, which puts them in the best position to provide help for anyone who might need it.

A representative for Los Angeles DUI Lawyer says, ?The Drinking And Driving laws in California are very straightforward. If you look at the Section 23152 of the California Vehicle Code, you?ll see that it is a crime to operate a motor vehicle under the influence of alcohol. Legally, ?under the influence of alcohol? constitutes a Blood Alcohol Content (BAC) of 0.08% or higher. Not many people actually understand the ramifications of this law, however, which might explain why impaired driving charges are among the most common charges litigated in the Los Angeles area.?

According to Los Angeles DUI Lawyer drivers commonly presume that these laws only pertain to driving under the influence of alcohol, or driving drunk, but the truth is that they cover a broad spectrum of offences. Under California law, the DUI-related charges that some could face include, but are not limited to, Impaired Driving, Driving Under The Influence, Over 80 m.g. DUI, Failure to Provide a Breath Sample, and Care and Control.

The consequences of being charged with a DUI can be grave. Los Angeles DUI Lawyer says, ?If you get charged with a DUI or similar offence, you could face a number of punishments. You could end up having a criminal record, having to serve a jail sentence, or having your driver?s license suspended. There are also other possible negative outcomes, like having to pay a fine or having travel restrictions imposed on you.?

According to Los Angeles DUI Lawyer, hiring a DUI attorney will cost a different amount based on the exact circumstances the defendant is in. The firm says, ?First of all, you need to consider how long the trial might be and the amount of time your lawyer will have to devote to your case. Then you need to consider the amount of disclosure in your case, such as the number of witnesses, expert reports, and such as they are significant. Last but not least, hiring additional resources like a private investigator, a toxicologist, or another expert will cost extra. In addition, there are also a number of other factors that can play a part. However, we can assure you that, at Los Angeles DUI Lawyer, we will do our best to provide a fair price for our services.? A recent client of Los Angeles DUI Lawyer, Jamal K., says, ?Hiring Los Angeles DUI Lawyer was the best legal decision I?ve made. They?re the best. I had to go to court for a DUI charge and the team assigned to my by Los Angeles DUI Lawyer were great. They were experienced, well spoken, and made sure that I was represented fairly. I don?t need to say, of course, that we won the case and I got out without even needing to pay a fine. Cannot recommend these guys any more.?

Another recent client, Brie L. says, ?I won?t pretend to understand the law. It?s not my area of expertise and I am no show off. So, when I got into some legal trouble, I was pretty upset. I didn?t understand any of it. The paperwork, the court, the judge, the whole process, really. But all of that ceased to matter when I hired Los Angeles DUI Lawyer. Not only was my lawyer a great attorney, he was beyond amazing at walking me through the whole process and explaining it in a manner that I could comprehend. He made sure that I was comfortable throughout the process and kept me updated as the case progressed, and got me out without a criminal record. Highly recommended.?
