

Mobile Plumbing Company Gives Tips on How to Lower Monthly Water Bill

August 30, 2019

August 30, 2019 - PRESSADVANTAGE -

Mobile, AL. ? All Clear Plumbing, a full-service plumbing repair company in Mobile, has supplied some helpful tips to inform their community on ways to lower their monthly water bill. Since many Americans are continuously looking for ways to cut costs, this guide can be very helpful.

The first tip that All Clear Plumbing suggests for lowering the water bill is to be more conscious when taking a shower. In the average household, each family member taking one shower per day uses a lot of water. By simply cutting shower time by a few minutes, a household will save thousands of gallons of water a year. Also, regular service of the water heater can help cut down the amount of water wasted while waiting for the water to heat up. Even though this may seem like common sense, it is one of the most important steps in lowering water bills.

Another tip that All Clear Plumbing gives to its community is to store cold water in the fridge. What people commonly do is run tap water until it becomes cold and then fill their glass. However, this habit uses a lot of water and increases the water bill. Instead, All Clear recommends filling pitchers with cold water and storing them in the fridge.

The final tip the water treatment service in Mobile offers is to use a dishwasher more frequently. Many people assume this will increase their water bill, but the opposite is usually the case. When people hand wash dishes, they usually keep the water running, a habit which uses more water than the dishwasher does. Also, energy efficient dishwashers can save even more water per load, as some only use just five gallons of water each time.

All Clear Plumbing is dedicated to helping their community and service area by providing ways to cut costs. For more information about All Clear Plumbing, give them a call at (251) 725-0808 or visit their website <https://mobilealplumbers.com/>.
