Beaverton, Oregon company, Clyppi, has launched the latest version of the Clyppi Fingernail Clipper on Amazon. The new Clyppi nail clippers have additional features which were added in response to feedback and requests from the company's loyal customers.

Keegan Allen of Clyppi recently released this statement regarding the new product launch: "We took into account everything our customers told us regarding what they want and need in fingernail clippers, and we've developed these new clippers based on that feedback."

The new Clyppi nail clippers feature a full-sized swing out nail file, key ring holes, a wider opening between the blades and an engraved thumb grip. Their ergonomic design suits the shape of most hands, making them comfortable and easy to use. They are designed for ease of use, particularly for those who suffer from arthritis and other hand issues.

The nail clippers are crafted from high quality stainless steel with a matte finish, and sharp enough to cut even the toughest of nails. States one Amazon customer: "I have really thick nails, especially on my toes. These clippers do the job and they do it well. With other clippers, I would end up with cracked or split nails, because they just weren't sharp enough for a clean cut. This is by far the sharpest nail clipper that I have ever

bought."

The fingernail clipper is 2.6 inches long, making it a bit larger than some other nail clippers, a fact that customers find appealing.

"We would always lose our clippers, because they are just so small that it's easy to misplace them. This one is a bit bigger, so it's easier to keep up with, and it's got a great grip, which makes it much easier to use on my little ones."

Clyppi provides nail clippers and other health and beauty products to customers around the world. This newest addition to their lineup is now available on the Amazon marketplace and is already attracting rave reviews.
