

Flat Fee Pros Of Dickinson County Help Homeowners Get Their Homes On The MLS For Less

September 06, 2019

September 06, 2019 - PRESSADVANTAGE -

Flat Fee Pros of Dickinson County would like to announce to homeowners in the area that the company can help them get their homes on the MLS quickly and for much less investment. The MLS is an important tool for anyone looking for For Sale By Owner (FSBO) options.

Usually, getting one's home put on the MLS requires that one work with a licensed broker like Flat Fee Pros. As flat fee real estate experts, Flat Fee Pros can get homes listed on the MLS quickly, and for a very low price. As they state on their website, "We want to earn your business and help you get your house sold quickly. Several of our offers include expert marketing strategies that can help you sell the home quicker." The company's website can be found at <https://www.theflatfeepros.com/>.

Flat fee MLS, or Multiple Listing Service, is the practice of a seller entering into an agreement with a real estate broker, who agrees to accept a flat fee instead of a percentage of the sale price for the listing side of the transaction. The purpose of a flat fee listing is twofold: to ensure that one's home is visible on the MLS and to cut out the listing side of the commission out by dealing with buyer's agents directly. The seller saves roughly half of the traditional commission costs while also retaining total control of the selling process.

The company's team of real estate consultants has a combined total of experience exceeding 50 years. They have the expertise needed to get clients' homes on the MLS for far less than they would otherwise pay. On top of getting homeowners' homes on the MLS, Flat Fee Pros uses their skills and knowledge to give clients a strong competitive advantage over other similar offers. Homeowners who make use of the services offered by Flat Fee Pros are also guaranteed to receive a number of great offers very quickly.

When trying to sell one's home, it can be difficult to get the house on the market and draw the attention of buyers without spending large amounts of money on the brokers and agents. Flat Fee Pros' services help simplify and speed up the process for their clients. "We love helping people reach their goals and save money," says the company. "When it comes to selling your home, we believe that there are alternative ways to sell your house quickly and for top dollar." The company uses all the tools at their disposal to make their

clients? homes marketable. They can be found at

Flat Fee Pros Of Dickinson County considers themselves ahead of the curve when it comes to real estate. As they say, "Buyers and Sellers can rest easy knowing that we have the technology to help them succeed. We are industry experts, with hundreds of millions of dollars in combined real estate transactions. We have dedicated support staff to help put your listings up fast, with access to local photographers and videographers as needed to make your property shine. Our marketing packages offer things like Press Releases and other marketing efforts to help your listing get noticed."

They continue, "We are part real estate agents, part psychologists. We know that this is an emotional time. We help you navigate these waters. Don't sacrifice quality. Most FSBO properties feel second rate, but our team will market your property and give it that first-class appeal."

Over 80% of buyers purchase their homes through real estate agents or brokers, and this number has seen a steady increase over the years. Often, buyers' agents will not show FSBO Owner listings due to reduced commissions. By listing through a flat fee broker like Flat Fee Pros, however, it may be possible to sell a piece of property for nearly 20% more than it would normally sell for.

The average time taken for a home to be sold is about three weeks when working with a broker, so homeowners looking to sell are encouraged to contact a qualified, experienced broker to get started. Read more about Flat Fee Pros of Dickinson County at the following link:
