

Growpetz Celebrates One Year Anniversary Of Their Retractable Dog Leash

July 30, 2015

July 30, 2015 - PRESSADVANTAGE -

Growpetz, a family run pet care company, is proud to celebrate the fact that they have been in business for a full year. Furthermore, they have been able to reach over 1,000 satisfied customers in that year with products including their retractable dog leash, which can be seen on <http://www.amazon.com/dp/B00V3ZWL9E>. This was an internal goal of the company and one that they are very proud to have met.

Keith Kruger from Growpetz states: "To be able to celebrate not just that we have been in business for a full year, but that our products are so well received is beyond even our own wildest imagination. We can only thank our customers for this, who have taken the time to share some of their stories with us that show just how well our products actually work."

The retractable dog leash in particular features an innovative design that enables the user to switch between lock and pause quickly and easily. This allows for full control of the dog while walking. Furthermore, it features an ergonomic design on the handle, so that dog walking is comfortable not just for the animal but also for the walker.

This is something reviewers have been speaking of frequently. "I could tell the difference the moment I picked it up!" says MotherTester. "It has a nice weight and feels more SOLID than any retractable leash I've used before. It fits the hand more comfortable and is a nice color to boot. I handed it to my husband and even he noticed the difference immediately. I really like that it has an "emergency break" as well as lock. It's easy to switch the switch back and forth. Also, when it's locked it's LOCKED. There's none of the gear slipping I'm used to in other models. That's really what blew me away."

For Growpetz, animals are true parts of the family and they know their customers feel the same way. This is why they have created products that are of high quality and comfortable design for pets and their humans alike. Hearing that this is noticed and appreciated is something they are very proud of.
