

Dukes Towing Launches Newly Improved Emergency Towing Service In Phoenix, AZ

September 06, 2019

September 06, 2019 - PRESSADVANTAGE -

Dukes Towing, which has been serving the residents of Phoenix for more than 15 years has recently launched new improved towing service in Phoenix, AZ communities and its surrounding areas. Robert Wickens, a spokesperson for the company, declares, "Our organization has been regarded as the cheapest towing service company in Phoenix. We are available 24/7 and we can help motorists in any vehicle emergency. We provide emergency towing, long-distance towing, and roadside assistance to stranded motorists. We uphold a 30-minute response time because we understand the stress, anxiety, and hassle of being helplessly stranded on the road while waiting for rescue while time continues to tick in.?"

The company underwent a major overhaul in improving its online communication system. Aside from merely providing information about the company and its services, they now included car care and travel tips on driving and road safety on their multiple social media platforms. For example, they advise motorists to check oil, air filter, lights, tire pressure, and spark plugs before hitting the road. They should also make sure that they carry a spare tire; tools like tire iron and jack as well as extra gas if they have a gallon. If something seemed wrong with the car, they advise motorists to pull over the side of the road and park the vehicle away from the travel lanes. During a car breakdown, all passengers should ideally step away from the car, and

hazard lights and warning devices should be appropriately placed to avoid any accidents.

With over 15 years of towing experience, Dukes Towing Company is a veteran in the industry. Throughout these years, they have practically dealt with all kinds of car emergency. They are fully licensed, bonded, and insured, thus ensuring customers of quality services. They comply with all towing policies in Arizona and employ a pleasant workforce who is fully qualified to tackle different kinds of car failures. From an easy jump start, spare tire change to other complex road assistance, they aspire to ensure that motorists do not get scammed by costly and fly-by-night tow truck services. ?We usually serve new customers in tough situations regularly. We respond to every emergency with a strong sense of professionalism and concern. We encourage all our customers to visit our Facebook page and website to send their feedback so that we can learn how to further improve the services we offer,? said Robert.

The firm?s tow truck services utilize up-to-date high-tech flatbed rollback tow trucks. With five strategic valley sites spread across Phoenix, they target to rapidly reach stuck drivers and provide crucial services at reasonable prices. Online discounts can also be availed through their website.

The towing company provides a complete range of services such as winching and recovery services, car lockout, oil and fuel delivery, junk car removal, and spare tire change. They can help out with a motorbike, light, and medium-duty towing. They avow to do their best to address any road problem that a customer may encounter. And all these are just a phone call away. Wickens noted, ?We take pride in helping thousands of people on their towing needs for the last 15 years. Our dedicated and skilled crew are always ready to provide all types of roadside assistance, including simple mechanical repairs for vehicles that broke down the road. But we encourage motorists to also be prepared for any emergency by keeping a charged mobile phone, a list of emergency numbers, emergency food, first aid kits and the like.?
