San Diego Foundation Repair Company Unlimited Drilling Receives 7 Straight Years of A+ Ratings

September 09, 2019

September 09, 2019 -
The San Diego drilling and foundation repair company is proud of its perfect record.

Unlimited Drilling & Foundation Inc., specializes in all aspects of foundation repair, slope stabilization and drainage systems. The company has had a file open with BBB since 2012 and has a A+ rating being accredited in July 2012. The rating is a reflection of how Unlimited Drilling & Foundation interacts with its customers to include any complaints. Unlimited Drilling has not received any complaints, hence the A+ rating.

Unlimited Drilling & Foundation has been in business 25 years, serving all of San Diego County. They complete the work themselves, not hiring outside subcontractors. They have completed over 1,000 projects.

?We pride ourselves in doing the job right the first time, on time, and within budget, for a very competitive price,? says Joe Azar, President of Unlimited Drilling & Foundation, Inc. ?I don?t get a signed contract then hand off your project. You will see me on the job constantly.?

Unlimited Drilling is ready to help customers for the upcoming winter season when rain can affect drainage

systems. Poor drainage can affect the health of a lawn, create flooding, and lead to soil erosion. A poorly graded yard can lead to muddy or soggy spots with the upcoming rain. These wet spots are perfect places for mold, mildew and moss to grow. Water accumulation can lead to flooding and with accumulation of stagnant water, mosquitoes are likely to breed. Yards can settle or erode over time. A good drainage system will move the water out of the packed solid areas, bringing a healthy environment to grow a lush green lawn. Good drainage can also prevent soil erosion and water accumulation.

Unlimited Drilling & Foundation Inc. is licensed with its general engineering and building license in the state of California. They are fully equipped for drilling up to 18? diameter holes, bobcats for movement of large amounts of materials, and dump trailers to keep project areas clean. They also have a huge stock of tools to meet project demands.
