

Baby Lock and Brother Dealer Ruthie's Notions Opens Event Center

September 23, 2019

September 23, 2019 - PRESSADVANTAGE -

Sewing machine retailer Ruthie's Notions in Baker, Florida has announced that they have opened a new event center. This new event center is 9,000 square feet. The new event center has room to hold their sewing machine classes, a new lunchroom, and has more space for displaying the Brother and Baby Lock machines that they sell.

Some of the classes that are available from Ruthie's Notions include Anita's University In The Hoop 501. This is a free class and those who attend will learn how to use hoops. On December 2nd, an instructor will be coming all the way from South Africa to teach a class on digitizing and embroidery. This is just a selection of a large number of interesting classes offered by Ruthie's Notions.

Ruthie Barnhill, the owner of Ruthie's Notions, assures potential customers that "Our Make it Take it classes and lecture demos are taught by the absolute best teachers in the industry today." Anyone interested in taking a class from Ruthie's Notions is encouraged to contact the store at the given link. The website for Ruthie's Notions lists all of the available classes, most of which are free, and all of which may come with free lunch. Many of the classes also come with free gifts. Some even have raffles for free sewing machines,

where every student gets a free entry into the raffle. The first class in the new event center was held on September 11th, 2019.

Ruthie's Notions sells a number of machines from Brother and Baby Lock, and notions that someone might need to get started using their machine. They have embroidery machines, sewing machines, sergers, quilting machines, and more. They also have a large variety of needles, thread, designs and more. There are always many sales and specials going on for those looking to possibly purchase a new machine or upgrade their current one. Trade-ins are always welcome.

In addition to selling Baby Lock and Brother sewing machines, Ruthie's Notions has a Repair Center, so they can repair broken Baby Lock and Brother machines. Ruthie and her husband have also visited the Baby Lock factory in Japan, and were impressed by the cleanliness and attention to detail of the workers. They include this information on their website so their customers can know that they are paying attention to the quality of the products that they sell.

Ruthie's Notions recently received an award from Baby Lock for being a Top Ten Retailer for a Single Location in 2018. They also won a \$1,000,000+ Club Member award from Brother for 2018. Ruthie states "We would like to thank all of our wonderful customers who helped Ruthie's Notions receive these amazing awards. We couldn't do it without them and their support. We hope all of our customers enjoy the new event center."

The website for Ruthie's Notions also has a lot of good information about sewing. For example, a recent blog post details the uses and other information about sergers. First off, there are several kinds of sergers, which are classified by the number of threads they use for their stitch, either 2 threads, 3 threads, 4 threads, or, 8 threads. According to the post, sergers can be useful for finishing seams, gathering ruffles for ruffy shirts and curtains, proper flexibility on seams for knit fabrics, cover stitching, and finishing edges so the fabric doesn't unravel. The classes on sergers at Ruthie's Notions, held in the new event center, can cover all of these serger use cases and more.

At Ruthie's Notions, you can join one of these many classes that will teach you about a variety of machines, or you can have a one on one class to learn about your new machine that you may have purchased at the store.

Anyone interested in more information about Ruthie's Notions is encouraged to view the Facebook page. The Facebook page for the store has continuously updated information about classes, sales, and other events happening at Ruthie's Notions.
