Windshield Replacement Dallas Company Stresses Importance Of Having Windshield Replaced For Safety Reasons

September 20, 2019

DALLAS, TX - September 20, 2019 -
Faith Auto Glass, a windshield replacement Dallas company, has stressed the importance of having a windshield replaced for safety reasons. They want to point out that damage to auto glass may occur at the most inopportune times and they are committed to providing the best solution, whether it is repair or replacement of the windshield or auto glass. Once the appropriate solution has been determined, they will help the car owner get the problem resolved.

Jane Darcy, a representative for Faith Auto Glass, says, ?Being a family owned repair shop, we take a lot of pride in our work, and stand by all of our repairs 100%. We give a lifetime warranty on all of the labor against water leakage, air leaks, or any other problems related to the repairs. All of our technicians are highly experienced, and hold very high standards.?

They want to point out that the windshield is an integral component of the safety restrain system of a car. It helps in preventing the roof from crushing in on the driver and passengers in the event of a rollover. It may also prevent the people inside the car from being ejected in the event of a serious collision. It can also help

the airbags deploy in the proper position to cushion passengers.

To ensure that the windshield would be able to perform its safety role, proper installation is required. This is what the technicians at Faith Auto Glass can ensure. It is also important to have the windshield replaced or repaired if it has suffered substantial damage. While some auto glass shops can only perform windshield repair, Faith Auto Glass technicians are capable of performing both repair and replacement.

They want to point out that modern windshields are no longer just glass but many cars have windshields that come with built in antennas, defrost in the glass, and even rain sensors. The professionals at Faith Auto Glass, fortunately have the experience and knowledge about advanced auto glass technologies.

Faith Auto Glass technicians have more than 13 years of experience and have been able to replace windshields of virtually every kind of vehicle on the market. They also have a huge inventory of windshields and work closely with local auto glass warehouses for those windshields that are quite rare and are not usually in stock. In a lot of cases, there is more than one choice for windshield replacement.

Meanwhile, windshields are usually installed with a certain type of molding around their edges. Some have the basic black molding but some have specialized finishes, such as chrome molding. Whatever kind of molding that a particular windshield has, the technicians at Faith Auto Glass will be able to replace it too if it was damaged along with the windshield. The result would be a new windshield that looks just like the original windshield.

And aside from windshields, the technicians at Faith Auto Glass are also capable of repairing power windows. While power windows have been designed for convenience, they can also be the source of frustration because there are many ways in which they could malfunction. Fortunately, the technicians from the company will be able to determine what the problem is and offer the best solution at the best possible price. First, they will troubleshoot the problem and then take apart the door panel in order to directly troubleshoot the regulator and motor assembly. Through a combination of visual inspection and electronic tests on the motor, the technicians will be able to quickly diagnose the cause of the problem. After that, they will determine exactly what is needed and then provide an estimate of the costs.

Aside from Dallas, Faith Auto Glass technicians also offer their services for people in the Rockwall County and Denton County areas. They offer both windshield replacement and power window repair services for those areas.

Those who are in need of cheap windshield replacement service in Dallas and neighboring areas can check

out the Faith Auto Glass website or contact them on the phone or through email.
