

## **Local Drain Experts in Etobicoke Announces Discounts to Seniors**

*September 17, 2019*

September 17, 2019 - PRESSADVANTAGE -

Etobicoke, ON -- Local Drain Experts - Drain Cleaning and Clogged Drain Service, Etobicoke's premier 24 hour emergency plumber in Etobicoke has announced a 5 percent off on all its services to the elderly. These offers can be used for any of their services including plumbing, boiling, and even to clear blocked drain pipes. This offer is to be availed at the time of booking the job.

Local Drain Cleaning Plumbing Company serves all of Etobicoke, including North Etobicoke, South Etobicoke, East Etobicoke, and West Etobicoke. Services to all of these areas are also valid in an emergency, during which they provide a plumber at short notice.

Their work is guaranteed; irrespective of the scale of the job, be it repairing a drain pipe or even installing a central heating installation. There is no call out charge; in fact free estimates are provided to anyone wishing

for a central heating upgrade system, or even refurbishing their bathroom.

"Our policies with respect to charges are clear. Except for jobs such as clogged drain service, no other services are charged by the hour. And if the problem can be solved within a reasonable time and without the use of materials, we give the estimates of the costs before going ahead with the job," says the spokesperson at Local Drain Experts.

The Etobicoke plumber provides a 12 month guarantee on new installations and a three month guarantee on all repairs or when parts have been replaced. And in some cases, guarantees can run up to 2 years (depending on the type of installation).

"Our services are aimed to help the customer achieve the best in terms of service. Thus, replaced or new products are not only covered under the manufacturer's warranty, but their labor is also covered by their guarantee of workmanship," adds the spokesperson. But just because the product or service is guaranteed does not mean that repairs during the guarantee period are treated callously. All calls and repairs are always on a priority basis.

With services from such a cheap plumber, it doesn't really make sense to spend hundreds of dollars on other plumbers with exorbitant rates for emergency services. And that too for services that are approved by the City Guilds, and the Go Safe Register.

About Local Drain Experts: A Drain Cleaning and Clogged Drain Service is Etobicoke's best plumbing and heating service provider specializing in clogged drain services and offers 24 hour emergency plumbing services, heating, gas, power flushing, drainage repairs, and electrical repairs.
