September 23, 2019 -
Burbank, CA based insurance agency Contractors Insurance Solutions Inc. is pleased to announce that they are offering help to contractors seeking public works projects in the state. The agency specializes in securing tailor made contractors insurance policies and CA contractors license bonds for their clients in southern California. More information about the agency can be found at the following link: Contractors Public Works Projects In California.

Matt Rogers, a representative for Contractors Insurance Solutions Inc., says, ?Owned and operated by a licensed California Contractor, Contractors Insurance Solutions Inc. is a company that knows the construction industry inside and out. We?ve made it our business to get you bonded so that you can get to work! We offer custom-built insurance programs designed to meet your company?s specific needs so that you can have the confidence to run your business as you like, armed with the security and peace of mind that comes with knowing that you will be financially covered in the event of an accident.?

The agency also offers California Contractors Insurance and the $15,000 California state contractors? license bonds required of all contractors by the state of California. Additionally, Contractors Insurance Solutions Inc.

offers all construction bonds, including the performance bond, bid bond, payment bond, release bond and surety bond in Los Angeles.

According to Contractors Insurance Solutions Inc., landing a Public Works contract is the greatest way to both increase profits and to ensure a certain consistency in earnings for a contractor in California. Public works contracts are also the surest way to build a strong and recognizable brand, as well as attract the attention of new and higher paying clients.

Rogers says, ?Public work contracts are obviously very attractive and there are a lot of contractors seeking public works projects. What they may not know is that there is a rather complicated selection process. An important part of this screening and hiring process is the contractors insurance. Without the right coverage in place, bidders can be deemed as being unresponsive and can have their proposals rejected outright, without any consideration at all.?

?So, if you are thinking of bidding on a public works project in California,? says Rogers, ?you should definitely connect with an insurance agency like us early on in the proposal process. This way, you can have your general liability, errors and omissions coverage, workers? compensation coverage, and other applicable policies reviewed, the coverage limits for your plans checked, and other pertinent factors verified before actually submitting your proposals.?
