

# Stamford American International School Celebrates 10 Roaring Years

*September 23, 2019*

September 23, 2019 - PRESSADVANTAGE -

At the beginning of this school year in August, Stamford American International School celebrated 10 amazing years with a day full of music, cupcakes, fun and laughter and temporary tattoos.

Stamford started out at temporary campus at Lorong Chuan, admitting its first cohort of 72 students back in August 2009. In 2012 the school moved to a purpose built, state-of-the-art campus and continued to grow. Today, 10 years on, Stamford is a school of over 3,000 students from over 75 different nationalities, across both its Woodleigh and Early Learning Village Campus.

Over the past decade, Stamford has grown to truly become a place where students, parents, teachers, and staff from all nationalities gather to create innumerable unique experiences to carry with them throughout their lives.

As part of the day's celebrations, students watched a special video message from Superintendent Dr. Eric Sands and were treated to Stamford mini cupcakes and temporary tattoos.

While fixing a celebratory temporary tattoo to his arm, Grade 3 student, Philip, remarked that it was an exciting day to be a Stamford Lion.

On this significant milestone, Dr. Eric Sands, Superintendent of Stamford American International School, said, "I have been very fortunate to learn and work in such a diverse, passionate, and caring community. Our 10-year journey has been extraordinary to say the least, and I am extremely proud and humbled to have had the opportunity to be a part of it."

About Stamford American International School:

Stamford American International School is a leading international school in Singapore for children aged 2 months to 18 years. At Stamford American, their vision is to inspire students to create their unique future. Our students not only have the opportunity to choose a sought after education pathway to help realize their academic ambitions, they are also provided with life skills reflective of the IB Learner Profile as adaptive, thoughtful and principled young adults, with a fostered inclination to design, innovate, problem solve and communicate. We offer the full International Baccalaureate (IB) Programme integrated with US Standards, combined with the College Board's Advanced Placement (AP) courses.
