

Implant Centre Martinko Celebrated For Implant Services

September 25, 2019

September 25, 2019 - PRESSADVANTAGE -

Implant Centre Martinko, based in Trieste, Italy, enjoys being recognized and celebrated as one of the best modern dental practices in the area, especially for their dental implantology services. The dental care center has been serving the community for several years, earning the community's recognition and respect for their reliability and dedication.

The dedication and thoughtfulness that the local dental care center demonstrates have been repaid by the community, as the company has received several new, positive customer reviews. These reviews have been shared through the Google review platform, where Implant Centre Martinko enjoys a near-perfect review rating of 4.6/5 stars.

One of the most recent comments showcased on their website narrates the case of Cinzia A., who says, "I returned to the clinic today. I have no words to express my great satisfaction and emotion. I thank you all very much; in particular, Dr. Borna, a serious, humane, and incredible professional! Not least all the staff, helpful

and welcoming. In particular, I am grateful for Tonja and Doris, who always welcomed me as a sister. The stay in Zagreb was magical from all points of view. I fell in love with you! Thanks, thanks, thanks."

Implant Centre Martinko has always stood out above their peers for their outstanding dedication towards their patients, as they state that their patients are their foremost priority. Dr. Damir Martinko, the Owner and Operator of the dental practice, states, "Receiving feedback like this is what motivates us to keep striving to provide a better service. Through our extensive experience in the field, we have learned to value our patient's experience above all else, since they are who we want to please the most."

In addition to the attention they pay their patients, the center is recognized as one of the best and most reliable dental practices in the area. They specialize in dental implants, which are the best options for patients who have lost a tooth. Their practitioners include some of the most experienced and qualified individuals in Italy, whose expertise is complemented with tools and equipment of the highest quality. All of these qualities allow Implant Centre Martinko to guarantee a successful outcome for their patients' procedures. Learn more here: <https://sites.google.com/site/dentalimplantstrieste/>.

The Implant Centre Martinko also puts a significant effort into completing all of their procedures in a single visit, as they claim that this causes less stress to their patients. They take pride in this, saying, "Only one session at our clinic is sufficient, and only one implant operation is needed to restore a harmonious smile to the patient. Our protocol allows us to remove one or more teeth in a single day, insert dental implants, and place temporary prostheses, thus allowing the patient to return to their daily life now with a new look and smile. There is nothing similar offered by other dental centers in the area, as we lead the field in the innovation of dental implants."

Alongside their implants, which are their specialty, the local center provides a broad variety of different dental solutions, including Dental Prostheses, Dental Veneers, Dental Crowns, Dental Bridges, and many more. All of these services are carried out with the utmost care and attention to detail, illustrating the center's dedication towards helping their patients.

"Everyone deserves a healthy, and shining smile," claims Dr. Martinko. "This is something that many are insecure about, and it pains us deeply to see it, especially since we know how easy it is to help them. We invite all interested parties to reach out to us for a quote and to ask about our payment options, as these are all catered towards helping you."

More information on the Implant Centre Martinko and their services can be found on their website, including a complete description of each of their treatments. Potential patients may also connect with Dr. Martink and his

team through his official Twitter account, which can be accessed through the following link:
