

Merger Proposed for Pest Control of Clovis

August 26, 2020

August 26, 2020 - PRESSADVANTAGE -

Pest Control of Clovis, a team of professional exterminators based in Clovis, California, is a pest control company that provides quality pest control services to Fresno County. They offer custom pest control services that ensure the most efficient ways of controlling any type of pest infestation to both residential and commercial properties. Pest Control of Clovis leads the Fresno County market in pest control solutions. The company offers emergency services and routine checkups.

On Friday the board of directors of Pest Control of Clovis voted in favor of a merger with another local pest control company. The board of directors believes this merger will be the best for the company. The merger will grow the employee base and the company's inventory. The inventory includes \$500,000 worth of pest control equipment and 5 utility vehicles that are priced at \$29,990 each. This merger will help the company grow and provide the resources necessary to reliably handle the growing customer base.

Pest Control of Clovis noticed a 35% increase in new customer calls in the last year and a 27% increase in routine checkup services sales. The company's revenue increased 50% year-over-year with a 12% increase in liabilities. These liabilities include 2 commercial lines of credit loans that are being used to grow the company's service area. The local company that agreed to merge with Pest Control of Clovis has signed an agreement that says they will receive 20% revenue share from all new pest control services and a 5% revenue share from current customers.

The president of Pest Control of Clovis thinks this merger is going to be a great way for the company to grow their revenue and service area. The president was interviewed on Monday saying, "Pest Control of Clovis is a great pest control company, and I believe the best in Fresno county. Our team of professional exterminators have been overrun with all of the new business. We needed more people and resources to keep up with all the new business. This merger is going to help relieve some of the pressure and help make sure each and every customer is helped in a timely manner."

Clovis residents looking to hire a professional local exterminator can contact Pest Control of Clovis by telephone or online at <https://pestcontrolcloviscalifornia.com>. The manager told us that they encourage property owners to contact them, if they just suspect a problem is present because getting ahead of the rodents or bugs is the key to enjoying a pest-free environment.
