

A Plus Pest Control of Los Angeles Notice of Merger

August 25, 2020

August 25, 2020 - PRESSADVANTAGE -

A Plus Pest Control of Los Angeles is a pest control company that offers professional-grade pest control services to all of Los Angeles County. The company has been offering reliable pest services to local residents for over a decade. With a team of 20 highly trained exterminators, they are one of the top-rated pest control companies in the area.

In a recent report, the company plans on merging with another smaller unnamed company. The board of directors voted in favor of the merger on Tuesday. The vote ended up being a 7/10 vote. A Plus Pest Control of Los Angeles hopes the merger will help the company grow their service area and make it easier for the company to battle the ever-growing number of pest infestations in Los Angeles County. The company will receive brand new equipment and 5 utility vehicles through the merger. This will allow the team of exterminators to perform their pest control treatments more efficiently and the company will have back up vehicles in case the current utility vans break down.

The president of the company said in a recent interview, "Pest infestations are on the rise. Pests are getting harder and harder to treat because they are adapting to the prevention treatments that most people use. Because of this, they are multiplying and spreading more than ever. Our services are custom built and are constantly being upgraded to ensure the most effective and efficient services in Los Angeles County." He went on to talk about how the merger will help the company grow: "A Plus Pest Control of Los Angeles has been hammered with new business. This is due to the rising cases of infestations. We are happy to see the company growing and we think the merger is going to help boost the company even further."

The company has been providing reliable pest control services to residents for a long time and plans on continuing this track record well into the future. Home or business owners can contact A Plus Pest Control of Los Angeles when facing a potential infestation or invasion of rodents, bugs or insects. Their team of experts can be reached by phone or by visiting their website at <https://www.pestcontrol-losangelesca.com/>.
