

Top Pest Control of Escondido Welcomes New Employee

August 31, 2020

August 31, 2020 - PRESSADVANTAGE -

Top Pest Control of Escondido has been around for well over twenty years. The company has been growing tremendously recently because of all of the new pest infestations. They have provided thousands of families professional pest treatments and help hundreds of clients with routine checkups every year.

The company announced on Wednesday that they are hiring a new employee. They welcomed Troy Beavers to the company on Tuesday and he will be starting next week. Troy has over ten years in the pest control industry and brings a lot of experience to the table. He has treated every pest that is native to San Diego County.

The president of the company talked more about the new hire in a recent interview, "The team and I are excited to welcome Troy to the team. He has a lot of experience with treating every species of pest in this area and he has an amazing work ethic. He has a positive can-do attitude and loves to help people. He wants to make sure no family has to deal with the stress of a pest problem ever again. He and his family just moved here last month so let's not only welcome him to Top Pest Control of Escondido but also welcome him to our beautiful town."

The company has noticed an increase in pest infestations recently. They believe that this spike in infestations is due to pests becoming more resilient to everyday treatments like over the counter products and do-it-yourself methods. Over the counter products include pest control sprays and traps. These treatments don't work like they used to so bugs are running rapidly. Professional service is the only way to go now.

If a pest infestation could be present in a residential or commercial property, owners can give Top Pest Control of Escondido a call today or go to their website to fill out a contact form at <https://pestcontrolescondido.net/>. Their hours are 9 a.m. to 5:30 p.m. on weekdays and 8 a.m. to 1 p.m. on Saturdays. They are closed on Sundays. They can provide a free estimate for most services by phone.
