

WeHaveCoolStuff Reveals Their Upgraded Deluxe Car Garbage Bag Organizer

August 04, 2015

August 04, 2015 - PRESSADVANTAGE -

The online company, WeHaveCoolStuff, has announced the launch of an upgraded version of their popular Deluxe Car Garbage Bag Organizer. The Car Garbage Bag, which is available on Amazon.com, now offers new improved features as well as a modified design. "Due to requests from customers, we have taken our already popular car trash bag and made some wonderful improvements to it." explained Richard Eisner, CEO of WeHaveCoolStuff.

The new bag is about 40% larger than its predecessor and has a mesh compartment area on the front for storing small items or cables. One of the most notable changes in the design of the bag is a new and more functional layout. "The cup-holding compartment has been moved to make it more accessible to the driver," explained Richard. The other major change in the design was to increase the size of the tissue box compartment. Additionally, the opening of the compartment has been moved to the back of the bag for aesthetic reasons. Richard added, "By moving the opening to the back, the tissue box is no longer visible and the sides are completely closed in. A Velcro strap holds the tissue box in place and this gives it more attractive and neat appearance. An adjustable headrest strap with quick-release buckle has been also added for convenience."

"We used a 600-denier polyester with sewn and finished edges for the exterior," Richard said, illustrating the bag's construction quality. "A leak resistant fabric lines the inside to protect the car's carpet and upholstery from spills and stains." An additional Velcro strip is provided with the bag that secures the back of the bag to the car seat to stabilize it.

The improvements appear to appeal to customers as they have been reporting their satisfaction in reviews left on the company's Amazon store page. "It is easy to install and it is roomy enough to handle a lot of trash," stated one customer. "The facial tissue holder and drink holder are added bonuses."

The company is currently offering a free report on 62 ways to save money at the gas pump along with every order. In addition, a 62% off the listed price special offer is being promoted to mark the launch of the new bag.
