

New Hire at Doral Pest Control & Exterminator

September 04, 2020

September 04, 2020 - PRESSADVANTAGE -

Doral Pest Control & Exterminator has been providing the Miami-Dade County residents with professional pest control services for over fifteen years. The company has grown tremendously and has been able to help thousands of families and business owners over the years. Their services are rated really high by the community. Their team of ten pest exterminators are professionally trained on how to treat every species of pest in the area. They all have years of experience in the field and are always happy to help people with their pest problems.

Doral Pest Control & Exterminator recently announced that they are hiring a new employee. Douglas Mosby was just hired on Thursday and will be starting training next week. After training he will go into the field and be helping families with their pest problems. In a recent statement, the president of Doral Pest Control & Exterminator said, "I am happy to welcome Douglas to the team. Douglas has seven years of experience in pest extermination services so he has a lot of skill and knowledge on how to treat pests. Douglas has a great work ethic and is a quick problem solver. He always finds a way to get the task at hand done, no matter how much work it takes. He will be starting our training program next week and then after that he will be in the field helping families with their pest problems."

The company has been growing very fast recently because there have been a lot more pest infestations in the area. A representative of the company recently said, "Pest infestations are on the rise because pests are growing immune to everyday treatments. Treatments like over the counter products and do it yourself methods aren't near as effective as they used to be. Professional services are becoming the way to go. These services guarantee pest protection that the pest sprays and traps don't have."

The company says that they have had a lot more calls recently due to more people having pest problems. The new employee will help allow the company to take care of every pest problem handed to them smoothly and effectively.

Doral Pest Control & Exterminator has helped thousands of customers over the years with residential and commercial pest infestations. If locals think they have a pest problem, they should give Doral Pest

Control & Exterminator a try. They can be contacted by phone or on their website at <http://doralpestcontrol.net/>. Their services are known to be fast, affordable, and effective.

An employee of the company explained, "Pests spread quickly and usually where there is one, there is more. If you think you have a pest problem, please don't hesitate to call for professional services. We can get rid of any pests you currently have and make sure that they don't come back in the future."
