

Miami Pest Control & Exterminator Company Acquires A Nearby Pest Service

September 04, 2020

September 04, 2020 -

Miami Pest Control & Exterminator has been providing pest control to the Miami-Dade County area for over twenty years. The company is actually coming up on their twenty-first anniversary next week. They have helped thousands of homeowners and business owners over the years with multiple different species of pests.

The company has a team of professional exterminators who have been trained on how to effectively take care of any kind of pest infestations out there. Their team of six specialists have been working hard to make the community as pest free as possible.

Miami Pest Control & Exterminator recently announced that they will be hiring two new employees next week. On Tuesday, Lisa Fry and Ron Doppy will start working as professional exterminators on the team. The president of the company talked about the new pest specialists in a recent interview, "Lisa has a lot of experience in pest control and has handled pests in every major climate of the United States. She knows how to treat just about any infestation out there. She is very smart and has an amazing work ethic. This will be Ron's first job in pest control. We are happy to welcome him to the team. He is a fast learner and picks up on things almost instantly. He is very intelligent and has a very contagious laugh that puts everyone around him in a good mood."

The company has been growing like crazy lately due to the rise in pest infestations in the area. An employee of the company spoke about this increase saying, "Pests infestations are on the rise because they are becoming more resilient to everyday treatments. These treatments include over the counter products and DIY methods. Pest sprays and bug traps don't work as reliably as they used to. Professional treatments are becoming the only solution to pest problems."

This rise in infestations has kept Miami Pest Control & Exterminator very busy recently. Their team of exterminators have been very busy so the company decided to hire on some new help. The president talked more about the growing number of calls, "Because of the number of new pest infestations we have been very

busy. We only hire the best so we are happy to welcome Lisa and Ron to the team. I know they are going to help us control the rising pest problem.?

If anyone has a pest problem they should contact Miami Pest Control & Exterminator today. They can be contacted by phone or on their website at <http://miami-pestcontrol.net/>. Their hours are 8 a.m. to 5 p.m. on weekdays and 8 a.m. to 1 p.m. on Saturday. They are closed on Sunday. Pest infestations spread quickly so don't hesitate to call. Where there is one there are usually a lot more.
