

Pest Control of Boca Raton Welcomes New Employees

September 04, 2020

September 04, 2020 - PRESSADVANTAGE -

Pest Control of Boca Raton has been providing reliable pest control services to Boca Raton for over two decades now. They have grown immensely and have earned a lot of good reviews for their services. They are known to be fast, reliable, and friendly. They have a team of professional exterminators who have all gone through highly rated training on how to treat every pest in the area. Their team of exterminators have helped thousands of families and business owners over the years and with that they have built a lot of trust in the community. They help make the local area as pest free as possible all the time.

The company has grown a lot since they first opened their doors. They are good at hiring experts onto their team. Recently the company announced that they will be welcoming two new employees to the team. Jonathan Miles and Donna Remly are the next new Pest Control of Boca Raton professional exterminators. Jonathan has a long history in pest control. He has a ton of experience with treating just about every pest out there. He seems very smart and is known to learn quickly. Donna also has some experience in pest control. Her personality is very positive and she has a very contagious smile.

The president of the company recently said, "Jonathan and Donna are both perfect for the team. We think they are going to fit right in and will help make our community an even better and safer place than ever. Jonathan has plenty of experience in pest control and is really handsy. He can fix just about anything you give him which will be great to have around when equipment decides to give after all the hard work we put it through. Donna is also extremely smart and picks up on things quickly. She loves to help people and instantly puts people in a better mood as soon as she meets them. We are excited for them to start next week and we know our customers are going to enjoy their service."

The company recently realized that there have been a major increase in pest infestations in the past couple years. A representative of the company recently said, "Pest Control of Boca Raton has done a lot of research into how many pest infestations occur in the area each year. So far this year we are hitting record numbers. This is scary for locals because they are at higher risk of their property being invaded by pests. The main reason for this spike in cases is due to pests becoming more immune to everyday pest treatments. These treatments include do it yourself methods and over the counter products like pest sprays. Professional

services are becoming the only option for a full blown pest infestation.?

Pest Control of Boca Raton today for reliable pest infestation services. They are open from 9 a.m. to 5 p.m. on weekdays and from 9 a.m. to 1 p.m. on Saturdays. They are closed on Sundays. They can be reached by phone or on their website at pestcontrolbocaraton.org. They are known to provide the most reliable pest services to Palm Beach County and offer free quotes when people call.

A representative of the company recently said, "Pests spread quickly. Usually by the time you notice one, there are already hundreds or thousands of pests roaming around your property. If you think you have a pest problem, call us today and we can help you get rid of your pests."
