

Pest Control of Clearwater Acquires A Nearby Pest Service Company

September 04, 2020

September 04, 2020 - PRESSADVANTAGE -

Pest Control of Clearwater has been providing professional pest control services to the Pinellas County area for quite some time. They have been in business for over twenty five years and have been growing ever since they first opened their doors. The company has a team of fifteen professional exterminators that can take on any pest control job in the area. No matter how big or small.

The company has constantly been growing over the years and plans to grow even more into the future. This last week Pest Control of Clearwater announced that they will be merging with another company that is deciding to stay anonymous for right now. The merger states that Pest Control of Clearwater will receive brand new pest control equipment, new pest control utility vehicles, and five new employees from the unnamed company. The contract is scheduled to be signed on Thursday. If signed, Pest Control of Clearwater will have a huge boost in growth. The company says they will be able to help more people than ever before with pest infestations of any size.

The president of the company recently said, "This merger is going to be huge because it will allow us to help more people than ever with any size of pest infestation. The new equipment will allow us to perform the treatments quicker and more reliably. The new vehicles will allow us to get to the infestations quicker and more reliably in poor weather. Finally, the new employees are going to be a great addition to the team. We are all excited to welcome them to the family and we know they are going to do great at helping us keep our neighborhood as pest free as possible. They all have a lot of prior experience in pest control and due to this they are perfect for the job."

The company offers multiple different services for all kinds of pest problems. They offer their signature custom treatments, routine checkups, and emergency services. Their custom treatments are by far their most popular because each treatment is designed specifically for each type of pest. These services are great because they make sure the job is done in the most efficient and effective way possible so that local business owners and families can be as pest free as possible.

The company believes no one should have to deal with the stress of a pest infestation. Their routine checkups make sure that the pests stay out. Their exterminators treat the property so that no pest would ever want to come near and they make sure there are no hidden entry points into the target property. Their emergency services are also pretty popular because they respond to calls quickly and help with any dangerous scenarios. These situations usually involve wild or distressed animals or a wasps nest.

Pest infestations are very serious, try giving Pest Control of Clearwater a call today. They can be reached by telephone or on their website at <https://pestcontrol-clearwater.com/>. They offer a wide variety of services for any pest problem out there. They provide free consultations and answer any questions.
