

Mr. Chem-Dry Offers Upholstery Cleaning Services To Ogden Residents

October 15, 2019

October 15, 2019 - PRESSADVANTAGE -

Centerville, Utah based Mr. Chem-Dry is pleased to announce that Ogden residents may avail themselves of the company's upholstery cleaning services. The company has been providing Utah communities with a variety of specialized cleaning services for many years, including Carpet Cleaning, Residential Carpet Cleaning, Commercial Carpet Cleaning, and much more. More information regarding the services they offer can be found here: [Upholstery Cleaning Ogden](#).

Daryl Olsen, a representative for Mr. Chem-Dry, says, "Your home's upholstery is, without a doubt, constantly being subjected to all kinds of attrition. It can very easily become a repository for all the grease, grime, and pungent odors that stem from a number of varying sources. These sources may include the outdoors, exotic cooking styles, or even heavy smoking. You don't want your house to suffer from such an environment, and proper cleaning for upholstery demands that all of these odors and contaminants are lifted from the fabrics as well as any interior padding and stuffing. The process requires a lot of specialized work, especially if you have high-quality home furnishings that cannot have their visual appeal or comfortable qualities besmirched through antiquated cleaning methods or harsh cleaning agents."

"The good news is that you don't need to worry," reassures Olsen. "If you live in Utah and you need your upholstery cleaned, you have an intelligent, effective, and affordable option that is only a phone call away. At Mr. Chem-Dry, we provide homeowners in Ogden, Utah and the surrounding areas with effective upholstery cleaning solutions."

The Chem-Dry process uses millions of microscopic bubbles to lift dirt and other contaminants from deep within the upholstery. The process also requires only a fraction of the water that conventional solutions, such as steam cleaning, use. After the carbonation process releases and lifts the offending particulates, high powered equipment is used to extract the dirt and moisture.

Mr. Chem-Dry guarantees that their experienced teams are dedicated to completing each cleaning service efficiently and on schedule. Olsen says, "We make sure our clients are given the utmost priority. Our workers are courteous and professional, and prioritize our clients above all else."

The company's dedication to the community and the quality of their service has earned them a positive reputation among local residents. They boast a near perfect aggregate rating of 4.9/5 stars on the Google platform, based on over a hundred reviews. Dallyn Giles says in her 5-star review, "I was able to get an appointment at short notice; the gentleman was punctual and finished much faster than anticipated. We've lived in our rental for a year and a half now and, while the carpets were 'cleaned' just before we moved in, they were never truly clean. He was able to easily get out the spots from the previous renters that I had given up hope of ever removing. The carpet dried quickly and I couldn't have been happier with the experience."

In another review, Abby Van Norman says, "Great company to work with! I called to see how much it would cost to have a love seat cleaned. Price was good compared to the other companies I had previously called. It was quick and easy to make an appointment. Scott cleaned the couch and did a fabulous job! Food stains and watermarks (from me trying to clean it) are now nowhere to be seen! Plus the couch smells fresh and clean. I am a happy customer. Highly recommended."

Mr. Chem-Dry also enjoys a 4.9 rating on Facebook, where a recent review by Coby Johnson reads, "Wow, wow, wow. Mr. Chem-Dry came out and did my carpets today. I love the work they did. My carpets are so clean and my home smells so good. Me and my wife were hating life because we just got a new puppy and our house smelled of nothing but pee and poop. We had Mr. Chem-Dry come out and they cleaned all of our carpets, and it didn't even break the bank. Thank you Mr. Chem-Dry for making our house smell good again."

Those interested in Mr. Chem-Dry and the services they offer may visit the company's website to learn more. Homeowners and other parties may also get in touch with Daryl Olsen directly for further inquiries.

Furthermore, Mr. Chem-Dry maintains a presence on social media, such as Facebook and Twitter, where they frequently share updates, customer reviews, blog posts, and more.
