Atlanta Drug Rehab Center Gives Residents A New Lease On Life

January 14, 2020

January 14, 2020 -
Atlanta, Georgia based Tangu, Inc. is pleased to share an online review they received on the Google platform. Penned by the mother of a patient who had utilized their services, the 5-Star review is a testament to the company?s overall standing among their clientele. They currently maintain an aggregate Google review score of 4.2 Stars, a score that lends to their reputation as one of the best drug addiction centers in Atlanta.

The mother, Stacy Prewett, thanks the company for the help they offered her son in her review, saying, ?Tangu truly saved my son?s life. This was his first time in treatment; he was given the tools in order to deal with his addiction and not relapse. He has been clean and sober for over a year. I really believe that if I had not sent him to Tangu he would not be with me today. Thank you, Tangu, for all you did for my son."

Similarly, Madeline T. says that she, ?was a client at the Tangu Cobb location and, I must say, I have gotten a lot out of it. This was my first time in treatment/recovery and I totally embraced it. I am in the process of transitioning out of the residences now, so I technically have one more week. I now have a great job, a great network of people who are in recovery, and a mind full of knowledge and coping skills I learned through Tangu!?

She continues, ?I have been clean for almost six months now and would not have been able to do it without this place! Saleem worked with me personally and I am so grateful for him! Sincerely! I absolutely loved Greg too! He deserves the highest regards out of everyone! I highly recommend this place to anyone who is serious about recovery and is wanting a lifestyle change forever!?

?Tangu? is a Swahili word that means New Beginning?a theme that Tangu Inc in Atlanta firmly stands behind. Founded over two decades ago, the drug rehabilitation center has gained a wealth of experience helping afflicted individuals (and by extension, their families) regain normal lives through counselling and

treatment. To this end, those looking for an appropriate substance abuse service in Atlanta will be pleased to learn Tangu is a Commission on Accreditation of Rehabilitation Facilities (CARF) accredited multi-counseling service and a Georgia state licensed outpatient substance abuse program.

Furthermore, the myriad services they offer are designed to approach each individual?s recovery with highly personalized care, which is why the clinic states that, ?Tangu?s Program Services are culturally sensitive and appropriate for all cultural groups regardless of race, color, or gender. The innovative programs and services offer many adults, youth, and families the opportunities they need to begin alcohol, drug, and violence free lives.?

Their services include outpatient education, substance and DUI, and intensive outpatient programs. Additionally, patients may undergo partial hospitalization as and when necessary, as well as dialectical behavioral therapy. The treatment center also hosts an Employee Assistance Program (EAP).

Patient Kenny Liu shares in their review that, ?Thanks to Tangu, I'm finally able to get control of my life and be free from the grip of alcoholism. I'm 10 months sober so far, and am excited to continue pursuing my goals. I didn't think I would ever quit drinking, but Tangu saved my life!? The basic idea behind these words is summarized in Paul Young?s review as well, in which he says that he, ?will forever be grateful to Tangu for helping me to a new way of life free from addiction!? More Tangu reviews for addiction care can be found on their Google listing.

Those looking for an effective and proven substance abuse program in Atlanta need not look any further than Tangu, Inc. More information can be found on their official website, and Dr. Walter Brooks of Tangu, Inc. can always be reached if prospective patients or their families wish to follow up on any inquiries. Notably, the center offers free consultations with their Admissions Counselors, who will be pleased to guide new patients through the services offered.
