RLP Maximum, a real estate brokerage in Woodbridge, Ontario, Canada, has revealed that homes and condominiums are great investments in Toronto. This is because a recent survey has shown that the prices of houses in two neighbourhoods and in eight condos have risen by more than 100 percent in five years. This means that their value have more than doubled in just five years. The survey used data from the Toronto Real Estate Board for prices between July 2014 and July 2019. Experts believe that the rising prices of detached and semi-detached homes have been causing the increase in demand for condos as home buyers find detached and semi-detached homes to be beyond their reach.

RLP Maximum, which is Royal LePage Maximum Realty Brokerage, has been in the business of providing homes to people in Ontario and even throughout Canada for more than 100 years. It was founded by A.E. LePage in 1913 and this brokerage has been helping people find their dream homes ever since. A.E. LePage, who was also a founding member of the Toronto Real Estate Board, had focused on ensuring that the people in the company were always professional in their dealings with customers. This was because they realized that they needed to earn the trust of strangers who are asking for help in looking for their ideal home.

RLP Maximum continues the tradition started by A.E. LePage. They continue to focus on professionalism and being innovative. They were some of the first realtors to have created an online presence, provide virtual tours to customers, and using the power of the Internet to assist their clients in buying or selling homes all over Canada.
